

Hybrid Cloud Security Workshop

🕒 3 Weeks 💰 \$35,000

Take the first step to unlock integrated protection

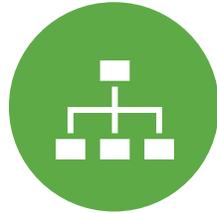

Understand how you can leverage a single integrated solution for cloud configuration management, alert detection, threat visibility, and incident response to continue to take advantage of the cloud.

Our delivery process

Envision

Provide the technology deep-dive for Microsoft Defender for Cloud and Sentinel, and connect with key stakeholders to define success factors.

Deploy

Configure the MDC and Sentinel environment in monitor mode only.

Evaluate

Analyze and evaluate the collected data and socialize the findings.

Review

Share the final analysis and recommendations on next steps with the leadership.
