

Envision what your future in banking looks like

Our experts are here to help you solve key challenges such as:

- Generating value with proactive insights
- Personalise every customer engagements
- Build new agile business processes
- Deliver always available services to any device
- Managing financial risk and reducing fraud

Empowering intelligent banking.

Banking is in a period of evolution as a result of transforming customer expectations and business models, non-traditional players leading to threat and disruption, fraud and cybercrime, new legacy systems, and unprecedented regulatory scrutiny.

In this new reality, how do you envision the future state of your organization? Build your transformation strategy with Microsoft Catalyst, a proven and powerful approach to innovation.

Let's ideate together

As part of Catalyst, meet with our experts and run an envisioning workshop, where we can ideate together using design led thinking concepts and jointly define how to enable the digital transformation of your organization.

This one-day briefing starts with a review of your business objectives, followed by mutual discovery and visualization of solutions, ending with a clear, actionable picture of how we can help you reach your business goals.

How HCL Technologies can help

HCL Technologies delivers end-to-end business transformation and strategic application design-and-implementation for the Banking sector. We are a leader in delivering Microsoft Business Applications through unparalleled offerings of service, support, education and add-ons, working with many of the largest retail and commercial banks across EMEA & APAC with high performing customer service, process automation and customer insights.

High-performing customer service, process automation and customer insights with PowerBanking.

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.
