

# Azure Migration Fast Start: Data & Analytics

While the long-term benefits of moving to the cloud have become increasingly obvious, migrating can be a daunting prospect. **Inviso specializes in making this journey easy.**

We have developed a streamlined approach for getting your applications and infrastructure deployed to Azure in weeks, not months. Simplify and accelerate your cloud journey by leveraging our proven processes, industry-leading experts, and deep partnership with Microsoft.

## Inviso Azure Migration Fast Start: Data & Analytics

In our Data & Analytics engagement, we'll show you how easy it can be to move to the cloud by modernizing a strategic component of your overall Data & Analytics platform. Designed for organizations that need to mature their data governance, and modernize their data, ETL & analytics workloads, our Fast Start program can help you to:

- Consolidate multiple disparate data sources
- Move from manual to automated, auditable data preparation
- Dynamically scale up and scale down systems to optimize cost and performance
- Enable self-service BI with a powerful, user-friendly platform
- Reduce maintenance and support effort

### Engagement highlights

Drawing upon our deep Azure expertise, Inviso will work with you through a comprehensive, four-step process to help maximize the impact of your Fast Start program.

  
**Step 1**  
**Assess & Plan:**  
**CAF & Governance**  
**workshops**

  
**Step 2**  
**Provision a**  
**production-ready**  
**Landing Zone**

  
**Step 3**  
**Deploy a Pilot**  
**(production**  
**candidate)**

  
**Step 4**  
**Define near-term**  
**migration, adoption,**  
**training, and**  
**optimization activities**
