AirGate's 4 Week Pilot Engagement for Microsoft Purview will deliver an operational Purview Environment with Data Catalog, Data Map and Data Estate Insights.

AIRGATE DELIVERS MODERN SECURITY ON CLOUD

AirGate is an award-winning partner that is exclusively focused on Microsoft Azure and holds 7 Gold Certifications and 4 Advanced Specializations from Microsoft. We are ideally suited for customers who have sensitive data and are in regulated industries such as financial services, healthcare, government and mission critical infrastructure like energy, manufacturing and construction or those customers who need rock solid security to protect their business.

See what customers are saying:

"AirGate impressed us with their depth of knowledge and breadth of expertise right away. Throughout our engagement, they gave us expert advice while also allowing us the flexibility to author our own solution."

– Ben Salvador-Watts, Director of Data Platform, Moneris

WHAT WE OFFER

This is an accelerated turnkey pilot of Microsoft Purview (formerly Azure Purview) that will deliver a Pilot Data Catalog, Data Map, and data insights for enterprise customers.

This solution provides a unified data governance service that helps you manage your on on-premises, multi-cloud, and software-as-a-service (SaaS) data. The AirGate Purview allows you to create a holistic, up-to-date map of your data landscape with automated data discovery, sensitive data classification, and end-to-end data lineage, enable data curators to manage and secure your data estate, and empower data consumers to find valuable, trustworthy data.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
