Maximize Microsoft Defender for Endpoint with Professional Services

Difenda is a global, certified, and accredited cybersecurity company that operates highly-certified cyber command centers. As one of Microsoft's top global implementation partners for Microsoft Sentinel and other services of the Microsoft Security suite, we provide 24/7/365 threat monitoring and response services that protect cloud services, endpoints, and mission critical infrastructure.

Get the most out of Microsoft Defender for Endpoint with help from Difenda experts

WHAT WE OFFER

Rapid Implementation

Accelerated value from your investment

We have invested heavily into research and development of an implementation methodology and automation capabilities designed to reduce the time and manual effort involved with rolling out Microsoft Defender for Endpoint across the enterprise.

Proven Experience

Built on years of security operations service delivery

Book knowledge only takes you so far and that's why Difenda's years of experience delivering security operations for customers in every industry with a diverse range of complex requirements. Don't just take our word for it – our operations are also ISO 27001, SOC 2 Type II, and PCI DSS certified.

Trusted by Microsoft

We're their secret weapon and we can be yours too

When Microsoft Defender customers with particularly challenging environments request help from the Microsoft partner ecosystem, Microsoft calls Difenda – and for good reason. We're highly certified, hold Microsoft Threat Protection advanced specialization in security, are a member of MISA, and a member of an exclusive Microsoft product incubator that gives us unparalleled insight and capability.

Global Scalability

Deployment on 6 Continents

Powered by Microsoft Defender's global cloud infrastructure and backed by Difenda's resources in North America, Europe, and Asia, we can support organizations of any size or structure. We've helped growing businesses, mature multinationals, and those in between maximize their Microsoft Security investments.
