

AC3's Azure Well-Architected Review

AC3 Well-Architected Review

AC3's Well Architected Review provides you with an experienced Cloud Certified Professional to review and document one or more workloads in your cloud environment. It provides a written best practice assessment with recommendations and roadmaps to maximise your cloud investment and improve your cloud security awareness.

Service inclusions

- ✓ Identify your workloads
- ✓ Well-Architected Review workshops, covering
 - ✓ Azure Well-Architected Framework
- ✓ Point-in-time review in line with Cloud Service Provider best practices
- ✓ A written report covering all reviewed areas, with improvement recommendations

Project duration:

Minimum of 3 weeks for project completion, with some customer dependencies
