Hybrid Security and Infrastructure

Challenges

Companies want to expand their security management capabilities in a simple, cloud based platform solution with industry leading security to manage users and their interactions with servers, apps, systems and policies

Help guard your data from attacks on multiple levels using innovative, identity-driven security techniques.

Ideal Solution

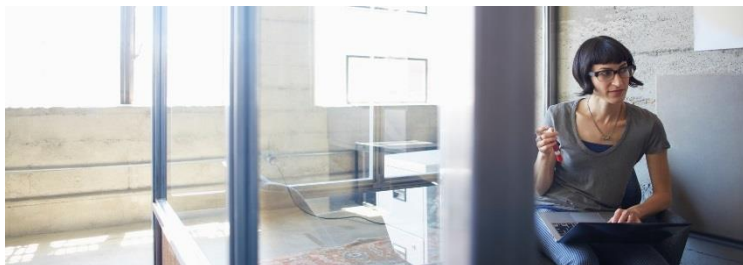

- Companies and customers want a holistic, identity driven solution with user identity and simplicity in mind, they want the flexibility of the cloud on per user per month basis

- Productivity without compromise

Desired Outcomes

Do more with less—protect users, devices, apps, and data with intuitive mobile management on a future-ready platform

Preserve the mobile and desktop experiences your workers need to stay working with familiar apps and tools.

Gijima Hybrid Infrastructure

Comprehensive, intelligent protection against today's advanced attacks using cloud based , industry leading OMS and Azure platforms to drive industry leading security , simpler and more rapidly.

Control identity + access in the cloud

- Centrally manage single sign-on across devices, your datacenter, and the cloud

Get identity-driven security

- Comprehensive, intelligent protection against today's advanced attacks.

Manage mobile devices + apps

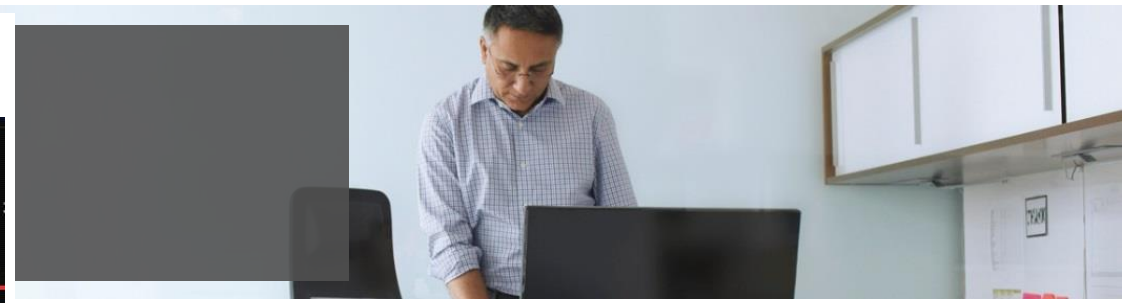

Securely manage apps and data on iOS, Android, and Windows from one place

Think Cloud, Think Windows 10 and EMS, Think Gijima!

Compromise

Flexible, comprehensive solutions

Help guard your data from attacks on multiple levels using innovative, identity-driven security techniques.

Preserve the mobile and desktop experiences your workers need to stay working with familiar apps and tools.

Do more with less—protect users, devices, apps, and data with intuitive mobile management on a future-ready platform.

Customer Success Story

Customer-facing

Johannesburg-based Gauteng Provincial Legislature (GPL) exists to pass legislation, provide a forum for citizen debate, involve the public in law-making and oversee the activities of the provincial executive. To fulfill the smooth delivery of these important civic duties, it relies on enterprise software and cloud based hybrid technologies like Azure, SCCM , OMS EMS – Gijima deployed a hybrid environment to migrate and manage the users security profiles

- Deal Size Saving \$500k – \$70 000 cost saving per month on EMS, OMS, SCCM and SAP Migration
- Date: FY17
- Public Sector South Africa
