

The Desktop-as-a-Service market is growing..

.. we are here to assist with:

- Customer-proved solution
- Best-practices based
- Infrastructure-as-Code (where possible)
- Fast Time-to-Market implementation (5-10 days for MVP)

MVP solution deployment within 10 days

Step1

Preparation phase (1)

Solution workshop.

Deployment planning.

Master OS Image preparation.

Optional: AD DS configuration

Step2

Deployment phase (2)

Network configuration.

Pre-requisites deployment.

WVD Host pool deployment.

Optional: Remote App configuration.

Step3

Post-Deployment phase (3)

Auto-scaling configuration.

Monitoring configuration.

RDS setting adjustment

Optional: User access configuration.
