## Arineo | Center of Excellence

### 3-Tage Workshop für Governance, Security and Compliance

Das Center of Excellence (CoE) treibt Prozess-Innovationen und Automatisierung und bringt gleichgesinnte Menschen mit ähnlichen Geschäftszielen zusammen, um Wissen und Erfolg zu teilen. Gleichzeitig stellt das CoE Standards, Konsistenz, Compliance und Governance sicher.

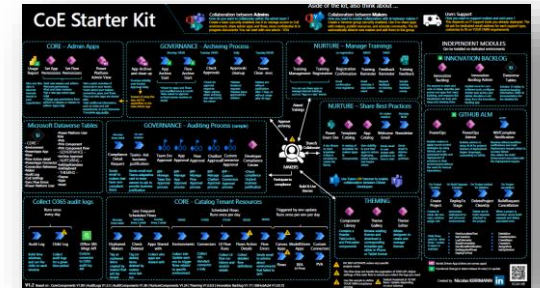

Das CoE Starter Kit ist eine Sammlung von Komponenten und Tools, die Ihnen beim Einstieg in die Entwicklung einer Strategie zur Einführung und Unterstützung von Microsoft Power Platform mit Schwerpunkt auf Power Apps, Power Automate und Power Virtual Agents helfen.

## Agenda

### Tag 1: Einführung

- Power Platform
- CoE–Starter Kit
- Lizenzmodell

### Tag 2: Standard Installation Starter-Kit

- Environments / Benutzer Management
- Power Platform Monitoring
- Innovation back log

### Day 3: Individualisierung Starter-Kit (Auszug)

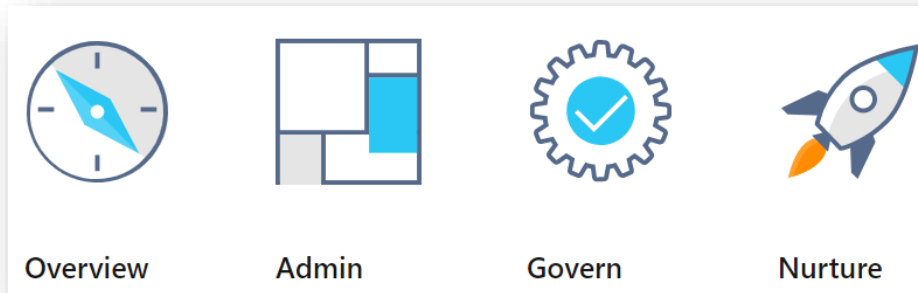

- Application LifeCycle Management (ALM)
- Data Loss Prevention (DLP)-Richtlinien
- Dashboards (environments, apps, flows, makers, connectors and audit logs...)

## Arineo | Center of Excellence

### 3-days Workshop for Governance, Security and Compliance

A Center of Excellence (CoE) in an organization drives innovation and improvement and brings together like-minded people with similar business goals to share knowledge and success, while at the same time providing standards, consistency, and governance to the organization.

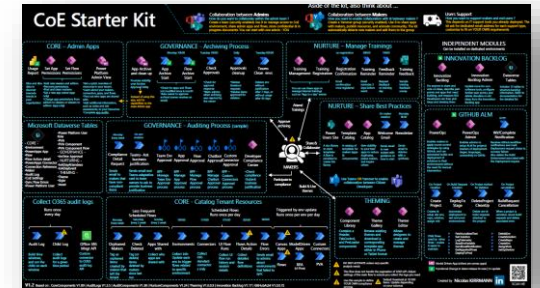

The CoE Starter Kit is a collection of components and tools that are designed to help you get started with developing a strategy for adopting and supporting Microsoft Power Platform, with a focus on Power Apps, Power Automate, and Power Virtual Agents.

## Agenda

### Day 1: Introduction

- Power Platform
- CoE–Starter Kit
- License Modell

### Day 2: Standard Installation Starter-Kit

- Environments / User Management
- Power Platform Monitoring
- Innovation back log

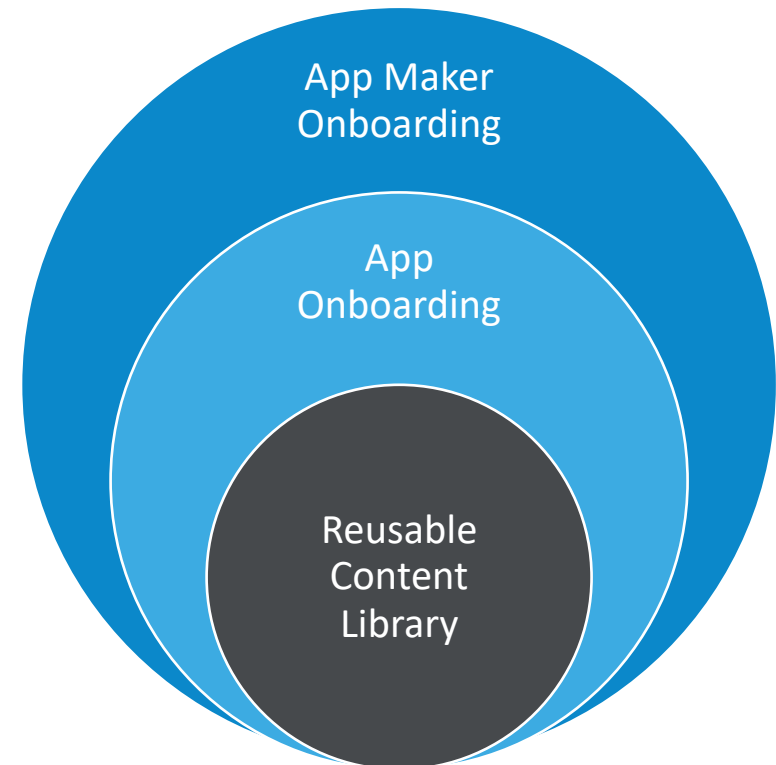

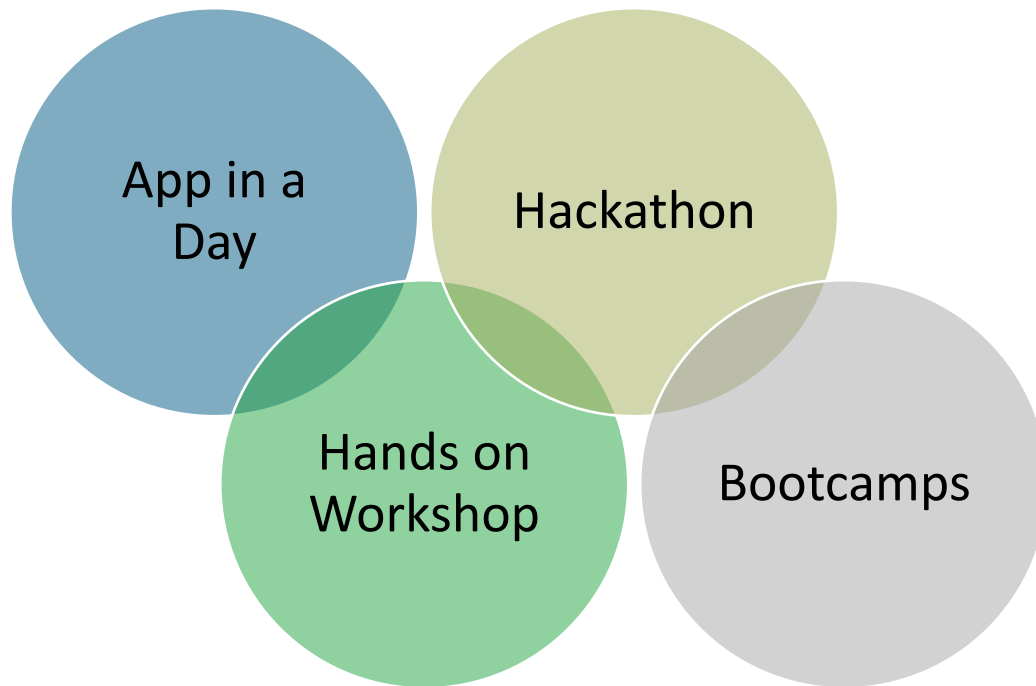

### Day 3: Individualisierung Starter-Kit

- Application LifeCycle Management (ALM)
- Data Loss Prevention (DLP)
- Dashboards (environments, apps, flows, makers, connectors and audit logs...)

# App Maker Adoption and Governance

Active Directory Groups will be assigned the correct licensing for Power Platform

# Data Loss Prevention

Power Platform Data Loss Prevention policies allow you to manage the connectors for Power Apps and Power Automate

Power Apps   Arineo GroupView   SharePoint

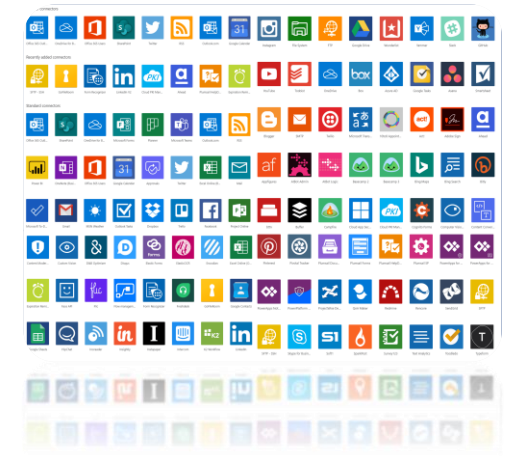

Business

Axelleron   Beekast   Beenote

Non-Business

BabtecQube   Beagle   Drawboard Projects

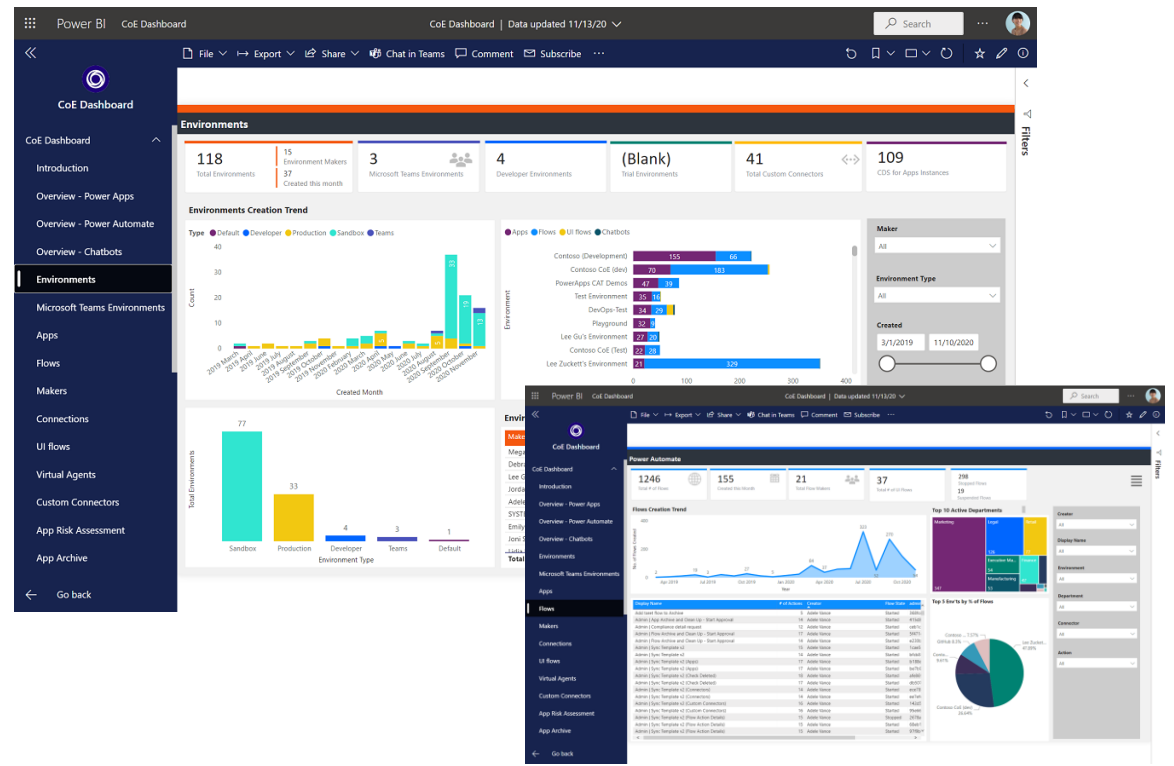

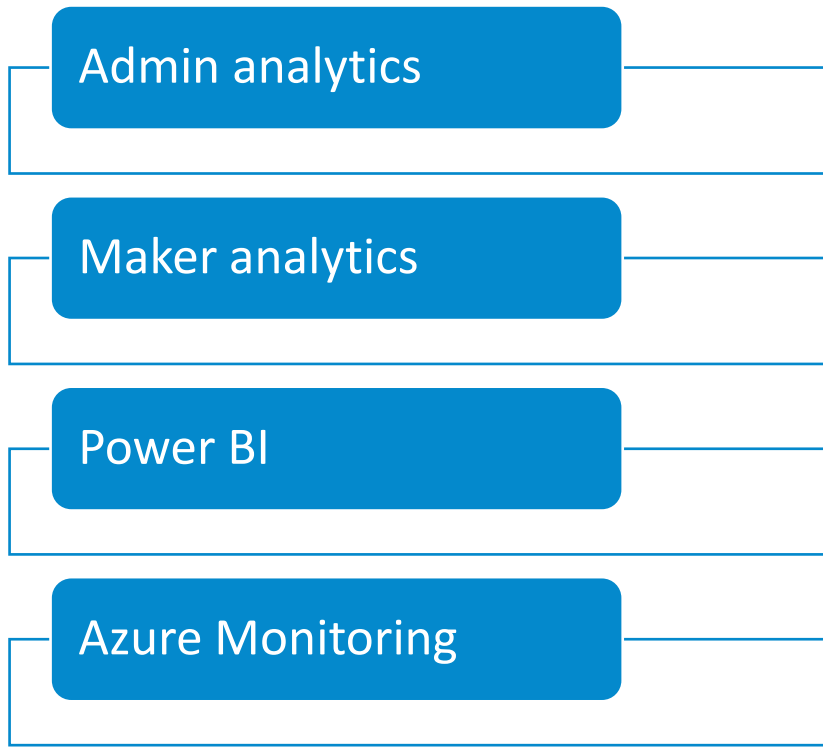

Blocked

# Power Platform Monitoring

With the CoE Power BI dashboard, you can query basic inventory to monitor usage across your entire tenant and within each environment.

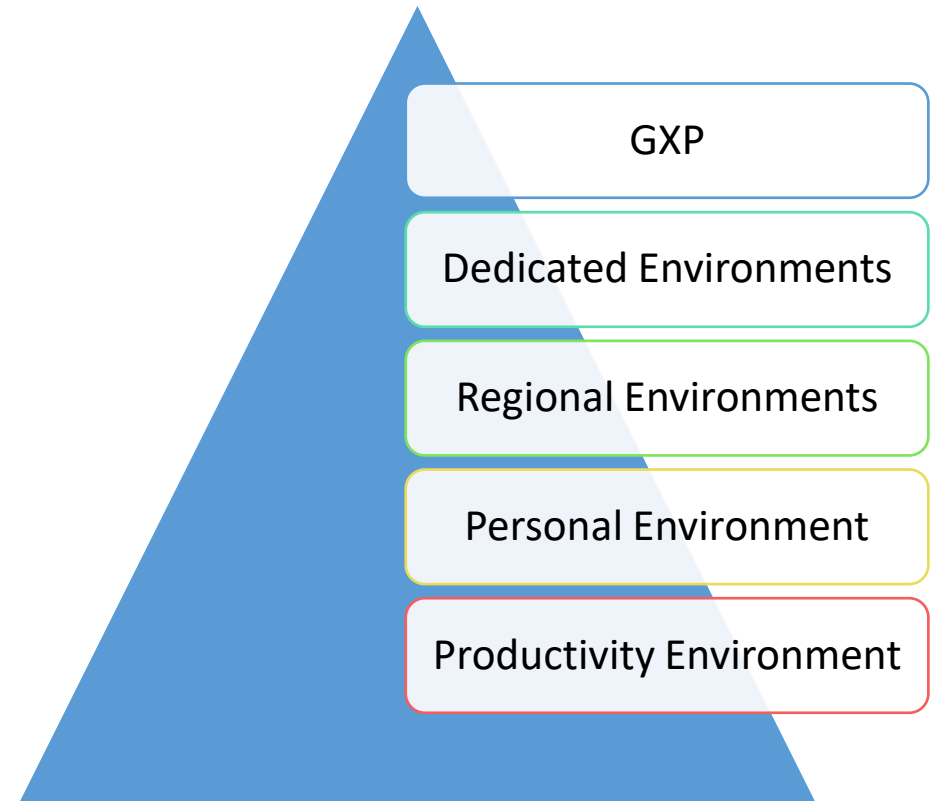

# Multi-Environment Strategy

A multi-environment strategy provides several benefits

AD Security Groups	Controlled access to environments via Azure
Data segregation between environments	DLP environment level enforcement
Performance – improved latency and scalability.	Administrations across each environment.
