CARES PROGRAM™

INNOVATION - COLLABORATION - EDUCATION

A Presentation by Jones Software Corporation
JSC~CARES PROGRAM

&EARLY COLLEGE

What is JSC Cares Program?

JSC~Cares Program is Based on the founding principles of the Every Student Succeed Act, that all students receive a quality education combined with high academic standards and innovative technology, equity, equality and a path toward career and development for underserved scholars. We work diligently with Educators, Community and Corporate Partners in providing resources, human capital (mentors/champions) and exposure to new concepts outside of their immediate surroundings for scholars, making the connection from personalized learning to career and development.
Dive Brief:
• The ability to adapt as things change is not part of the education system in America, Katrina Stevens, director of learning science at the Chan Zuckerberg Initiative, and Matt Greenfield, managing partner of Rethink Education, wrote in a recent EdSurge article. Yet many careers, from game design to engineering, require the ability to adjust plans as something is built and constructed.
• Infusing curriculum with more project-based learning and exposure to real-world examples could help students develop these crucial tools while still in school.
• Those experiences could also help students see that their later success could be based on more than just the grade they earned in a class — but also the experiences they developed during their lessons.
JSC’s Personalized Learning Curriculum

- iLikeMath Adaptive Learning Tool K-I2 Multi-Tier Support System
- Interchangeable Content
- Content Based on Common Core Standards
- Measurable Outcomes (BOY, MOY, EOY)
- College and Career Readiness
- Mentorship
- Enhanced Classroom Curriculum with Experiential Learning Opportunities

Equity & Access to Science Technology Engineering Arts & Math

INTEGRATIONS
ABOUT

JSC CARES PROGRAM

JSC successfully brings corporate partnerships to communities to assist in bringing long-term value to scholars encompassing academic and career development and applications such as: coding workshops, math tutoring, summer internships and relationship building.

JSC improves the trajectory of scholars in communities where course work is daunting to scholars whom lack resources, direction and mentors. iLikeMath-Cares Program will empower and encourage scholars to succeed in life. Educators will reflect back to when Learning and Teaching was fun!
How many scholars understand where they fit in technology for tomorrow?
STUDENT WORKSHOPS
"ENGAGING STUDENTS - SHOW ME.'

Access

Powered by Field Trip Factory
Experiences that Inspire"
STUDENT WORKSHOPS
"ENGAGING STUDENTS - SHOW ME."

The Loop
Understand users' needs and deliver outcomes continuously.

Observe
Get to know people, uncover their needs, test your ideas.

Reflect
Build understanding, form intent, commit to decisions.

Make
Explore ideas, prototype possibilities, drive outcomes.

The Keys
Scale your practice to complex problems and complex teams.

Hills
Align your team around specific, worthwhile outcomes to achieve.

Playbacks
Reflect together in a safe space to give and receive criticism.

Sponsor Users
Give users a seat at the table. Invite them to observe, reflect, and make with you.
APPLE
JSC & Apple Inc. invites Thornton Township High School to North Michigan Ave Store for Student Experience.

MICROSOFT
• Workshops
• Digi girlz
• B-STEM
• Various Student Experiences

IBM
• STEM Challenge
• STEM FEST
• Engineers Week
THANK YOU
