Gold Application Integration

**FyrSoft** invites you to a deep-dive, interactive exploration of how to migrate existing infrastructure to the cloud. We're hosting a one-day workshop covering everything from whiteboarding migration strategies to hands-on experiences with migration tools, and we'd like you to be a part of it!

In this workshop, professionals in infrastructure management & technical decision-making roles will better understand:

The reasoning & value of migrating VMs and servers to Azure

How to whiteboard a VM/Server migration strategy

Tools & methods available to help you migrate to Azure

The morning session will focus on infrastructure migration use cases, cloud TCO value, common obstacles to avoid, and mapping out your migration/modernization strategy. The afternoon session will be dedicated to hands-on training to help get you started on your cloud migration journey. Labs will focus on

- Creating your migration landing zone in Azure, and
- Migrating VMs and Servers to Azure.
