

# Cloud Economic Assessment and Migration Offers

Let Neudesic accelerate your migration and modernization journey with Microsoft-funded offerings to help your organization maximize value, minimize risk, and achieve more with your IT investments.

## Azure Cloud Economic Assessment

**About:** With real-time performance data from your existing application environment, we assess your cloud readiness, prioritize Azure-ready workloads, and provide you with detailed cost-consumption estimates.

**Duration:** 6 Weeks

**Outcomes for your organization:**

- Comprehensive Cost Analysis
- Azure Consumption Estimates
- Migration & Funding Procurement Plan
- Architecture Findings & Recommendations
- Executive Business Case

## Azure Migration Engagement

**About:** The migration engagement provides you with an in-depth analysis of a specific workload or application for migration to Azure complete with architecture design and migration plan.

**Duration:** 6-8 Weeks

**Outcomes for your organization:**

- Migration analysis & recommendations
- Azure cost estimates
- Azure service & architecture recommendations
- Detailed migration plan

## Application Innovation Azure Migration Engagement

**About:** We deliver an in-depth analysis of up to five applications spanning 25 VMs and five databases complete with architecture design, migration plan and the actual migration of applications to Azure.

**Duration:** 6-8 Weeks

**Outcomes for your organization:**

- Migration analysis & recommendations
- Azure service & architecture recommendations
- Azure cost estimates
- Migration plan and execution
