

The KPMG Power Apps experience

With user-friendly interfaces that automate workflows and fill gaps in off-the-shelf software systems, KPMG is helping organizations accelerate enterprise modernization, agility, and efficiency. Power Apps are more than the sum of their parts. Connect them together — and to Office 365, Dynamics 365, Azure, and hundreds of other apps — and build wide-ranging business solutions for your organization.

How we can help

We are here to help you harness the power of low-code in the right way for your organization. Lining up the right set of capabilities with your unique business challenges can be anything but straightforward, but we will work with you to show a clear path to unite these technologies in the optimal way for you.

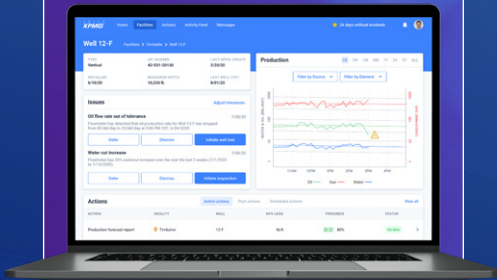

Low-code platforms like Power Apps can dramatically speed up the creation of sophisticated apps enabling organizations to:

- Incorporate complex business logic
- Automate workflow and case management activities
- Integrate with existing cloud and on-premises systems.

The KPMG Power Apps experience

We offer you:

- ✓ App development
- ✓ Pilot program
- ✓ Workflow automation
- ✓ Embedded AI
- ✓ Governance and control
- ✓ Data policy and security
- ✓ Connectivity and collaboration
- ✓ Transformation program management
- ✓ Wide-ranging lifecycle management

A clear path to success

Our experienced and diverse team of low-code professionals combined with bundled solutions, prebuilt frameworks, and accelerators will help formulate a detailed plan from business case to requirements, to design and implementation. We have worked with companies across many different industries using the Power Platform and other low-code platforms to develop investment savvy models that overcome capital constraints and gets to value quickly.

Case Study: Restart America

Components used:

Canvas Apps, Power Automate, Azure SQL DB, PowerBI

The app: As companies began reopening their workplaces as quarantines eased, they had to make changes to their sites, enable new digital tools, and create new relationships with healthcare providers. The Restart America App allows businesses to manage employees' COVID-19 requests, including a daily exposure check-in, symptom checker, individual risk score, and an option to request to travel — as well as offering wellness resources such as meditations. It is proving a vital tool as companies continue to adjust to our “new normal”.
