

YOUR GATEWAY TO CLOUD CONTROL

SOFTCAT'S AAA SERVICE

Technology is changing faster than ever, and cloud expertise is in short supply. But that doesn't mean you have to feel left in the dark.

Our Azure Adoption Accelerator Service (AAA Service) is here to make things, well, less cloudy. From getting you kick-started with a cloud environment to setting the team up to succeed, we'll show you that the sky's the limit.

EASY BREEZY

Get up to speed effortlessly with our expert assistance.

WORRY-FREE WORKING

Our highly secure service meets the strict standards of the Centre of Internet Security benchmark.

TAKE A BREAK

Grab a quick coffee while you wait and you'll be up and running with Azure in just 10 minutes.

GET THE MOST FROM YOUR MONEY

Our low cost service lets you monitor your cloud environment in the most efficient way possible.

CONQUER THE CLOUD

You'll get all the tools to continue your cloud journey, including a training day with a Microsoft Certified Technical Consultant.

HOW DOES IT WORK?

It all starts with our Automation Engineers who'll set up a highly secure Azure environment ready for you to migrate your workloads. This is built to the Centre of Internet Security benchmark, so there's no need to worry or wonder what-if.

WHAT NEXT?

Once built, a Microsoft Certified Technical Consultant will be with you for training. They'll make sure you and your teams are confident to power on with the cloud.

You'll also benefit from our Cloud Intelligence Platform which lets you monitor the environment so you're always getting the most for your money.
