

Accelerating the success of Intelligent Automation.

SilkFlo helps your team identify, manage and measure your entire Intelligent Automation pipeline with one easy to use, cloud-based solution.

90%

Of Automation projects **fail**
to achieve ROI.

Avoid the common automation pitfalls

Difficult to identify the right
Automation opportunities

No standard, data-driven
methodology across
departments

Takes time to collect ideas

Process documents are
decentralised

Difficult to measure
success of Intelligent
Automation program

Lack of employee
engagement

Increase the success and ROI of your Automation initiative.

SilkFlo improves successful deployments of Power Automate, UiPath, Automation Anywhere, BluePrism and other leading RPA solutions by up to 75%. SilkFlo supports your Center of Excellence across the Automation lifecycle.

Benefits
