Enable a secure remote desktop experience from anywhere

About Fellowmind WVD – 3 Week – Proof of Concept:

You can introduce a new and modern work environment with Windows Virtual Desktop where your employees can work securely across devises and away from the traditional office desk.

Our Proof of Concept is based on Microsoft best practice and comprehensive customer experience

Our WVD Proof of Concept consists of the following:

1. Firstly, you will receive a presentation of the WVD concept in a preliminary workshop. The preliminary workshop is followed by a mini analysis of your existing IT-environment.

2. Secondly, a minimum WVD setup takes place. This minimum setup makes sure that you gain the necessary insights into WVD and its business value.

3. Lastly, a concluding workshop is conducted, where the WVD experience is discussed, your questions are answered and next steps are discussed.

Save money, quickly adapt your external desktop to users and deliver new applications directly to your employees' Virtual Desktops.
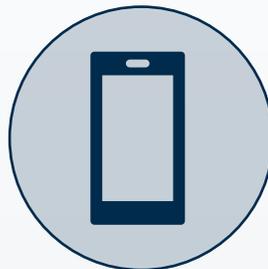

You can introduce a new and modern work environment with Windows Virtual Desktop where your employees can work securely across devises and away from the traditional office desk.

Flexibility and scalability for your virtual desktops
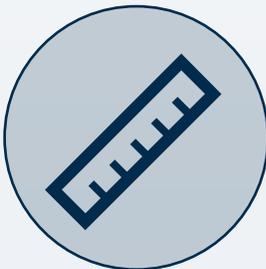

Easily delivered to all employees

Implementation of a Modern Workplace with Windows Virtual Desktop

By implementing Windows Virtual Desktop in the municipality

...reach a higher degree of flexibility.

...secure financial savings.

...continuously adapt external desktops to their employees' evolving needs.

Fellowmind has enrolled a modern digital workplace for Herlev Municipality following their soon to come relocation to new office buildings.

Herlev Municipality needed a solution that serves virtual desktops to their employees without compromising their need for a high degree of IT security.

With the help of Windows Virtual Desktop, Herlev Municipality obtain a new and modern workplace where employees can work across devices regardless of their physical location.

Additionally, Windows Virtual Desktop ensures that compliance and IT security continue to live up to Herlev Municipality's security requirements.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
