- Assess & assist cohort intelligently
- Productively & efficiently manage cohorts
- Seamless 360° learning stage insights to re-design better curriculum
- Parents & Employers gain a real-time updates on their wards / employees learning progress

## Rapidly scale the personalized facilitation

Lithan has been a pioneer in the ASEAN adult education sector. When COVID struck, the Skills Future Singapore, a statutory body under MoE, granted the permission to scale up the reskilling of adult Singaporeans looking for a new industry job role. Lithan's blended learning pedagogy was a perfect fit for learning from home but **it had to also ensure** that these learners stayed focused, adhered to cohort calendar, be provided personalized help & interventions to complete formative & summative assessments on time and with desired quality.

OmniMentor addressed these needs to the **T** and much more.
