Cloud-Readiness Assessment

Hso | 2021

Why?

1

How can I get more control over my IT costs with the Cloud?

2

How can I better support the core business with the Cloud?

3

How can I increase the availability of my IT-systems with the Cloud?

4

How can I increase my IT security with the Cloud?

5

How can I increase employee productivity and collaboration with the Cloud?

The goal

With the Cloud-Readiness Assessment, HSO helps you to assess your current IT environment and define your future state of IT.

We help you draw up a strategic roadmap and write a business case for a successful and cost-efficient journey to the Cloud.

Assess

Your current IT environment

Define

Your desired future state of IT

Create

A strategic cloud roadmap

The approach

1

Cloud-Readiness Workshop

- **Workshop 1:** Assess the current state of IT
- **Workshop 2:** Define the desired/future state of IT

Deliverables

- Cloud-readiness report with current and future state of IT

2

Roadmap Workshop

- **Workshop 1:** Define the route, prioritization and program to arrive at the future state of IT. In this workshop, we determine the order in which the necessary IT-assets will be migrated to the Cloud.

Deliverables

- A strategic roadmap and high level plan with milestones for the cloud transformation

3

Migration Assessment

- **Workshop 1:** An elaboration of the cloud migration activities to be performed for the first milestone of the specified cloud roadmap

Deliverables

- Migration plan, budget indication and a commercial proposal

Customer Case: Heras

The corona crisis has made **Heras** a more modern and flexible company. The transition to the cloud and the introduction of Microsoft collaboration tools allow employees to communicate and collaborate more efficiently.

HSO has helped Heras define their Microsoft cloud strategy. As a result of this, Heras was able to migrate efficiently to the cloud thanks to the strategic roadmap we defined together, resulting in cost reduction and a smooth transition.

A few interesting Facts:

Organization:	Heras
Solution:	Azure & Microsoft 365
Challenge:	IT Carve Out from former parent company. Cloud Transformation of IT systems and global implementation of the Modern Workplace.

HERAS
