

Microsoft Power Platform App in a Day Workshop

Göttingen

www.arineo.com

Business – still White Spots in the Process

 Existing Standard Application

 **White Spot**

Empowering business to create applications and flows that currently does not exist

Microsoft Power Platform

No code, low code, and code first—all are welcome

Power Apps

Application development

Power Automate

Workflow automation

Power BI

Business analytics

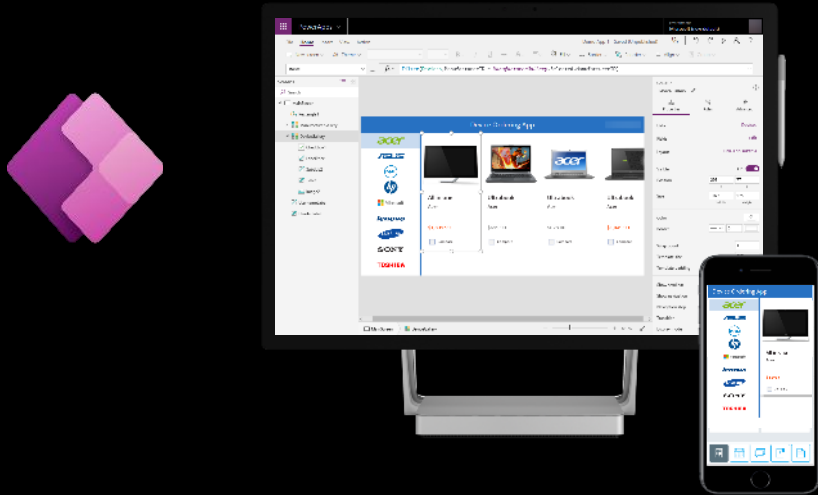

Power Virtual Agents

Intelligent virtual agents

PowerApps

A low-code approach to building apps

Easily build web & mobile apps with a full featured low-code/no-code platform (primarily LOB + B2E apps today)

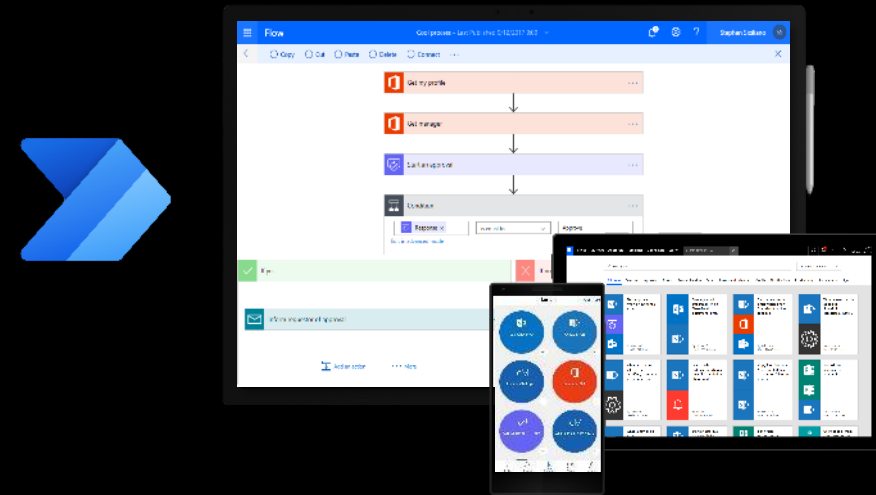

Connect to your existing data with 400+ pre-built connectors and custom connectors

Strong enterprise governance & security

Pro-dev extensibility enable “no limits” development

Power Automate

A low-code approach to automation

Model business processes and automate workflows and your apps and services

Connect to all your data with 400+ pre-built connectors, RPA and custom connectors

Strong enterprise governance and security

Pro-dev extensibility with Azure and custom logic

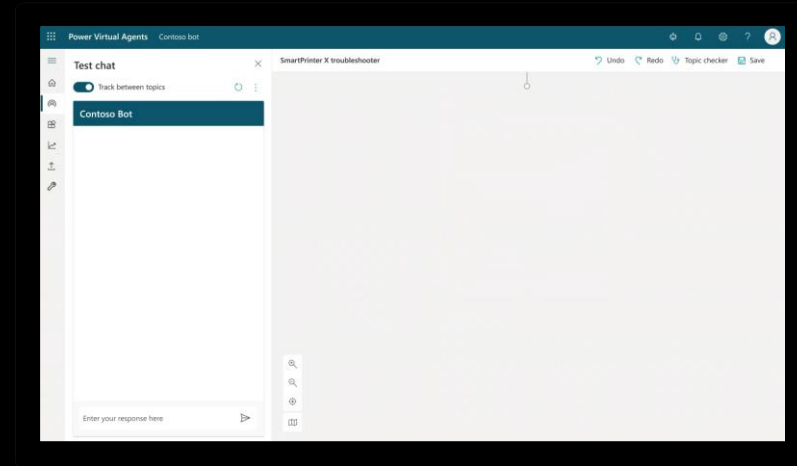

Power BI

A low-code approach to self-service BI

Power Virtual Agents

A low-code approach to conversation

Drive a data culture for everyone, every decision, at any scale

Empower every individual with familiar data experiences and AI infused insights

Infuse teamwork with data by weaving BI into the fabric of where you work

Scale to 100,000s of users, meeting the most demanding enterprise needs

Engage with your customers and employees conversationally. Resolve routine issues easily, freeing up staff to focus on complex matters

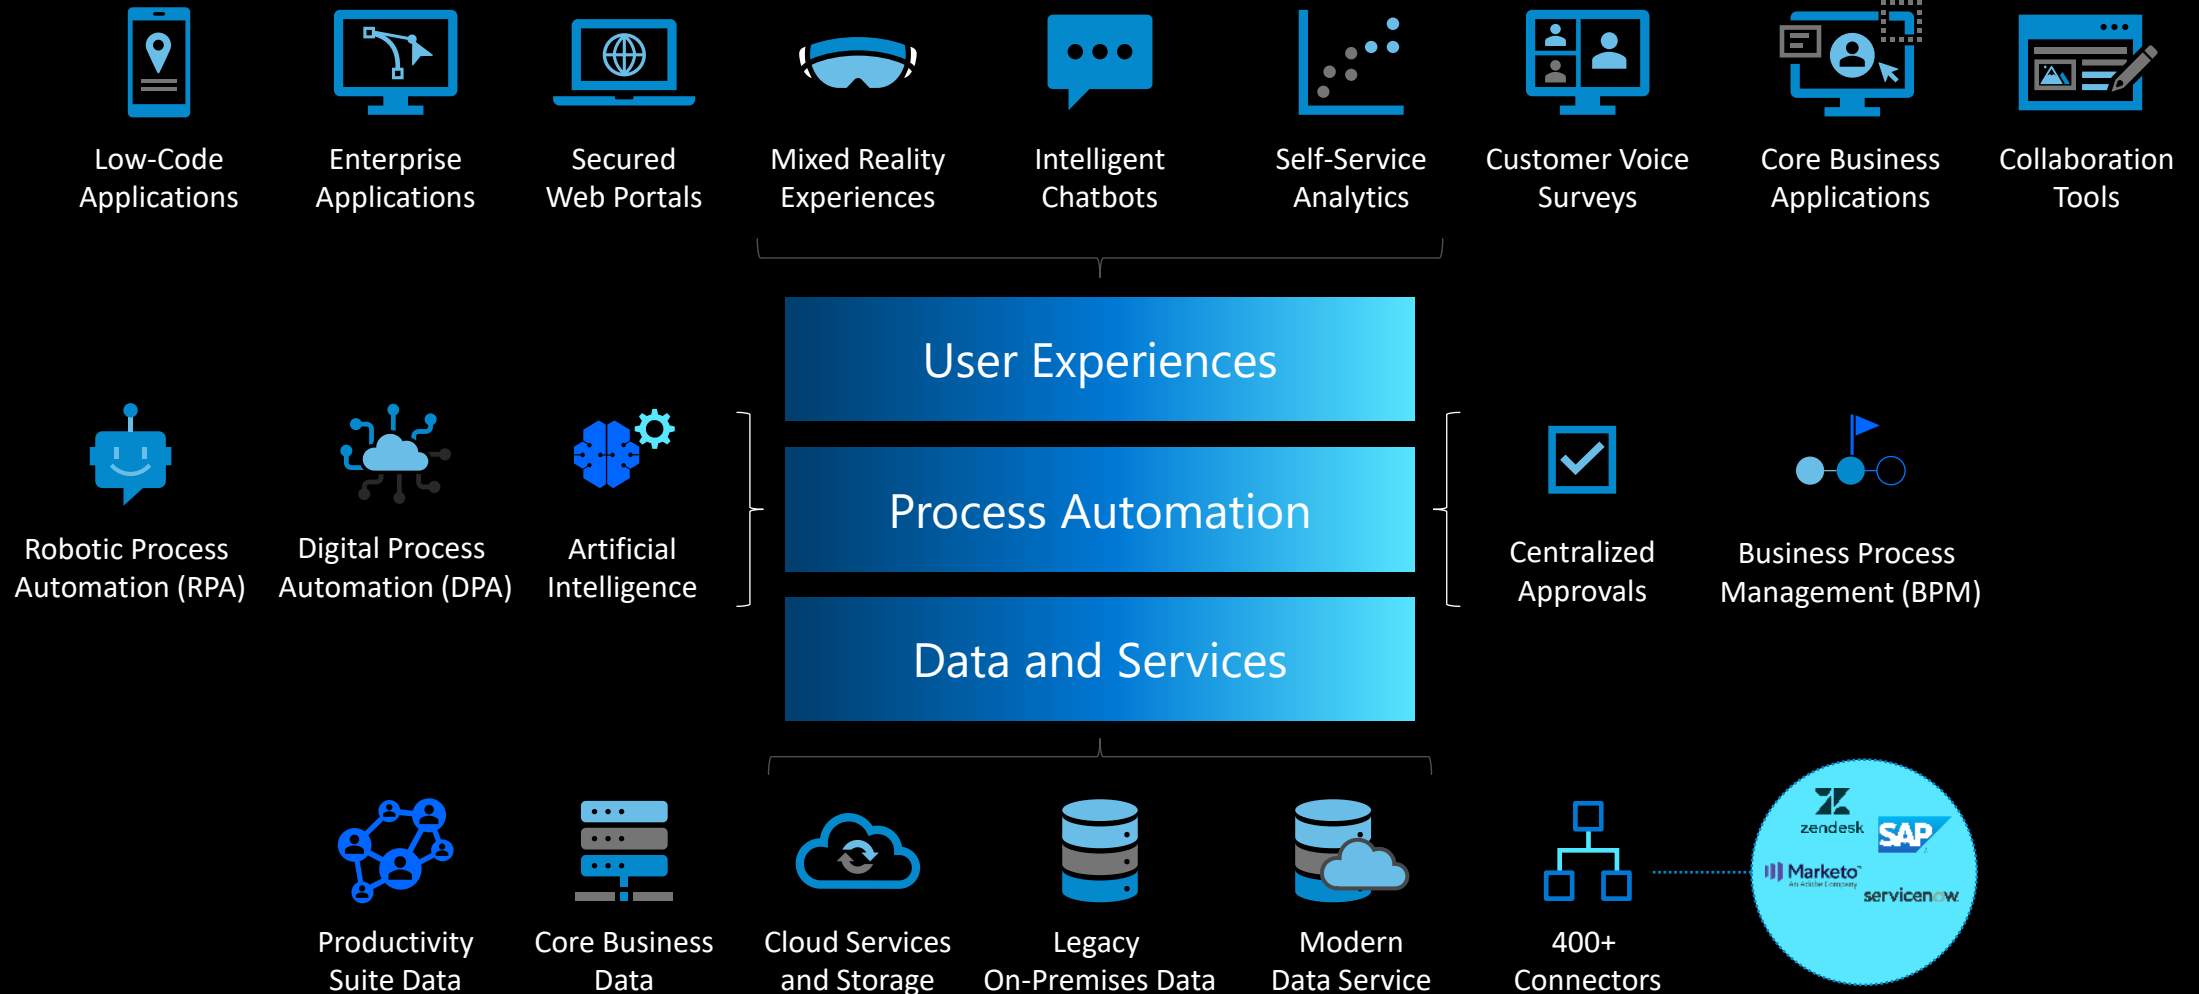

Empower your subject matter experts. Easily create powerful bots using a guided, no-code graphical interface and AI-driven suggestions

Less talk more action. Leverage all the Power Platform connectors or call APIs and custom processes using Power Automate

Easily extend your bots. Add even more complex capabilities using Microsoft Bot Framework

Unmatched functional flexibility

Leverage all the capabilities of the Microsoft Power Platform
