Deliver services across channels - effectively, efficiently and securely supported by high availability and scalability

WHAT WE OFFER

Mastek is offering automated solution of publishing Oracle ERP microservices with different data points to various channels of consumption within & outside the organization's enterprise IT landscape.

Improve your Oracle ERP applications & data Interoperability with ready to deploy API gateway on Azure & API monitoring solution.

The solution comes with preconfigured API's for Oracle ERP & custom console to publish & manage data points access control.

In addition to help companies define their application microservices strategy & roadmap on Azure, we have ready to deploy fabric that accelerates the microservices journey by deploying pre-integrated framework with Oracle Fusion cloud with pre-configured API monitoring solution for Oracle ERP microservices access control.

Microsoft Product Involved::

- Azure API Gateway
- Azure API Monitoring Tool
- Custom Console Application

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
