

AZURE CLOUD MIGRATION PACKAGED OFFERS

As more organizations are digitally transforming themselves, the cloud is a key part of their journey. By migrating to the cloud, organizations can leverage benefits such as cost-effectiveness, scalability, and security. Optimus Information assesses where you are now, where you want to be, and how to get you there.

Optimus Information has developed three packaged offerings that can jump-start your Azure cloud migration journey using Microsoft's Cloud Adoption Framework.

CLOUD MIGRATION JOURNEY

*The 2 week assessment is included in this offer

- Gold Application Development
- Gold Application Integration
- Gold Data Analytics
- Gold Data Platform
- Gold Datacenter
- Gold Cloud Platform
- Gold DevOps

Optimus is a Managed Microsoft Partner & Cloud Solution Provider with seven Gold Competencies and deep Azure technical expertise. Leveraging an experienced Microsoft partner like Optimus can save you time and money, and ensure a successful data strategy.

AZURE CLOUD MIGRATION ASSESSMENT

As more organizations are digitally transforming themselves, the cloud is a key part of their journey. By migrating to the cloud, organizations can leverage benefits such as cost-effectiveness, scalability, and security. Using Microsoft's Cloud Adoption Framework, Optimus Information assesses where you are now and how you can align your business objectives to your cloud adoption plan. This leads to a smooth and value-focused roadmap for our clients' successful migration to Azure cloud.

Performing a thorough assessment of where you are now and where you want to eventually be is the first crucial step in the cloud migration journey.

AZURE CLOUD MIGRATION ASSESSMENT

OUR APPROACH

- Assess your business motivations, objectives, timelines and constraints using Microsoft's Cloud Adoption Framework
- Assess your organization's structure and skills readiness
- Complete a high-level inventory of your existing "digital estate"
- Assist in creating a business case for the migration journey
- Assist in deciding the next steps
- Formulate a high-level strategy and suggest a suitable first candidate for migration based on the assessment

OUTCOMES

- Aligned organization and stakeholders
- High-level strategy highlighting the current situation, visibility into desired end-state, and an outline on how to bridge the gap

DELIVERABLES

- Documented assessment of your current application
- Documented motivations, business outcomes, and business case

2 WEEKS | \$10,000

AZURE CLOUD MIGRATION ASSESSMENT, STRATEGY, & ROADMAP

As more organizations are digitally transforming themselves, cloud is a key part of their journey. By migrating to the cloud, organizations can leverage benefits such as cost-effectiveness, scalability, and security. Using Microsoft's Cloud Adoption Framework, Optimus Information provides you with an assessment, strategy, and roadmap, aligned with your business objectives around your cloud adoption plan.

Having an assessment, strategy, and roadmap to assist in your journey is essential in achieving a successful cloud adoption outcome.

AZURE CLOUD MIGRATION ASSESSMENT, STRATEGY, & ROADMAP

OUR APPROACH

- Conduct a strategic assessment of where you are now, where you want to go, and why (business motivation) using Microsoft's Cloud Adoption Framework
- Complete a detailed "digital estate" audit
- Analyze organizational alignment and skills readiness
- Develop a cloud adoption plan, resources, timelines, budgets

OUTCOMES

- Strategy, plan, and roadmap based on your objectives and priorities
- Accelerated migration by eliminating roadblocks to migration and improving processes
- Aligned organization and stakeholders
- Best practices in place for Azure readiness

DELIVERABLES

- Documented assessment, strategy, and migration roadmap
- 90 day plan
- Skills readiness plan
- Risk assessment

3 - 4 WEEKS | \$25,000

Gold
Competency

- Gold Application Development
- Gold Application Integration

AZURE CLOUD MIGRATION PROOF-OF-CONCEPT

As more organizations are digitally transforming themselves, the cloud is a key part of their journey. By migrating to the cloud, organizations can leverage benefits such as cost-effectiveness, scalability, and security. Using Microsoft's Cloud Adoption Framework, Optimus Information aligns your business objectives with your cloud adoption plan. This delivers a smooth Azure cloud migration that delivers value.

Once it is decided that action is required, a proof-of-concept is a good way of taking a "test ride" to see what the rest of the journey will look like.

AZURE CLOUD MIGRATION PROOF-OF-CONCEPT

OUR APPROACH

- Lay the foundation of all future work with the POC using the previous assessment, roadmap, and plan as a guide
- Create an initial "Landing Zone" to establish a presence within the cloud and provides a safe space with appropriate guard rails, budget constraints, monitoring and governance processes in place
- Organize resources, determine responsibilities, and start work
- Gather and internalize lessons learned once the work is completed

OUTCOMES

- Accelerated migration by eliminating roadblocks to migration and improving processes
- Aligned organization and stakeholders
- Best practices in place for Azure Readiness

DELIVERABLES

- Presence on Azure
- Limited number of servers, applications, and databases are "lifted and shifted" from your on-prem (or private cloud provider) data center into Azure.
- System is demonstrated to function as expected and is able to showcase some of the non-functional features of the cloud (ex. scaling, security, high availability, etc.)
- Learnings document that captures lessons learned from the proof-of-concept

3 - 4 WEEKS | \$25,000
