OUR CLOUD OFFERINGS

**CLOUD
MIGRATION
ASSESSMENT**

**BESPOKE
MICROSOFT CLOUD
SYSTEMS DESIGN**

**CLOUD
ARCHITECTURE
AND OPERATIONS
ASSESSMENT**

**CLOUD
EXPLORATION
AND BUSINESS
VALUE ASSESSMENT**

CLOUD MIGRATION ASSESSMENT

Cost: Three-Week Assessment R 170 000 (excl.VAT) (estimate is complexity dependent)

Migrations involve the transitioning of systems and data to the Azure cloud platform.

Dotcom will perform an as-is assessment and the outcome of the assessment includes a strategy/guidance on the following:

- **Business value assessment.** Determine what the potential return on investment is that the business may receive.
- **High level system portfolio dependencies.**
- **High level analysis on inter-system and data dependencies.**
- **Azure licensing and engagement (for new engagements)**
- **Proposed Tenant setup, account configuration and topology**
- **Architectural suggestions on system migrations** (Microservices, serverless etc) - Data migration strategy
- **High level data storage and dependency analysis**
- **Hybrid systems and infrastructure topology**
- **DevOps strategy**

CLOUD MIGRATION ASSESSMENT

Cost: Three-Week Assessment R 170 000 (excl.VAT) (estimate is complexity dependent)

Our services offering can typically extend to cover the following specific implementation deliverables.
(the effort is excluded from the original assessment cost as items below are actual implementation activities that will be highlighted during the assessments):

- General cloud consultation
- Hybrid Strategy and/or (excluded from the execution)
- Governance Plan (Regulatory compliance)
- DevOps configuration and execution
- Data analysis and migration (Data structure, hosting)
- Per System/Application migration planning and execution (System decoupling)
- In-depth Application portfolio analysis (Rehost, Rewrap, Redesign, Retire, Replace)

BESPOKE MICROSOFT CLOUD SYSTEMS DESIGN

Cost: Two-Week Assessment R 120 000 (excluding VAT) (estimate is complexity dependent)

With a proven track record and extensive experience with creating systems for Microsoft Azure, Dotcom offers a tailored, professional and future-ready design for systems of all industries.

Considering Azure's wide breadth of offerings, Dotcom prides itself by having architectural expertise and capabilities in virtually all areas including:

Infrastructure and Networking

Microservices (Service Fabric, Kubernetes)

Serverless (Functions, Logic Apps)

IoT

AI:

- Bot Services
- Machine Learning
- Cognitive Services
- Search and Form Recognition

Big Data

Mobile

DevOps

Azure Systems of Record (Storage Accounts, CosmosDB, SQL etc)

Security and Identity

Business Continuity and Disaster Recovery

Governance

BESPOKE MICROSOFT CLOUD SYSTEMS DESIGN

Cost: Two-Week Assessment R 120 000 (excluding VAT)(estimate is complexity dependent)

We understand all things cloud. Successful systems are designed with architectural considerations and patterns such as consistency, availability and partition tolerance.

We understand when to choose certain models to achieve goals such as enterprise scale through architectural designs such as event-sourcing and CQRS (Command Query Responsibility Segregation).

What do you get?

We offer architectural design and guidance for all and any Microsoft cloud engagements including Office 365 and Dynamics365 with the option of implementation, if required.

You will get an architectural design document that will cover infrastructure, software/application architecture and functional requirements of the system.

BESPOKE MICROSOFT CLOUD SYSTEMS DESIGN

Cost: Two-Week Assessment R 120 000 (excluding VAT) (estimate is complexity dependent)

We understand all things cloud. Successful systems are designed with architectural considerations and patterns such as consistency, availability and partition tolerance.

We understand when to choose certain models to achieve goals such as enterprise scale through architectural designs such as event-sourcing and CQRS (Command Query Responsibility Segregation).

What do you get?

We offer architectural design and guidance for all and any Microsoft cloud engagements including Office 365 and Dynamics365 with the option of implementation, if required.

You will get an architectural design document that will cover infrastructure, software/application architecture and functional requirements of the system.

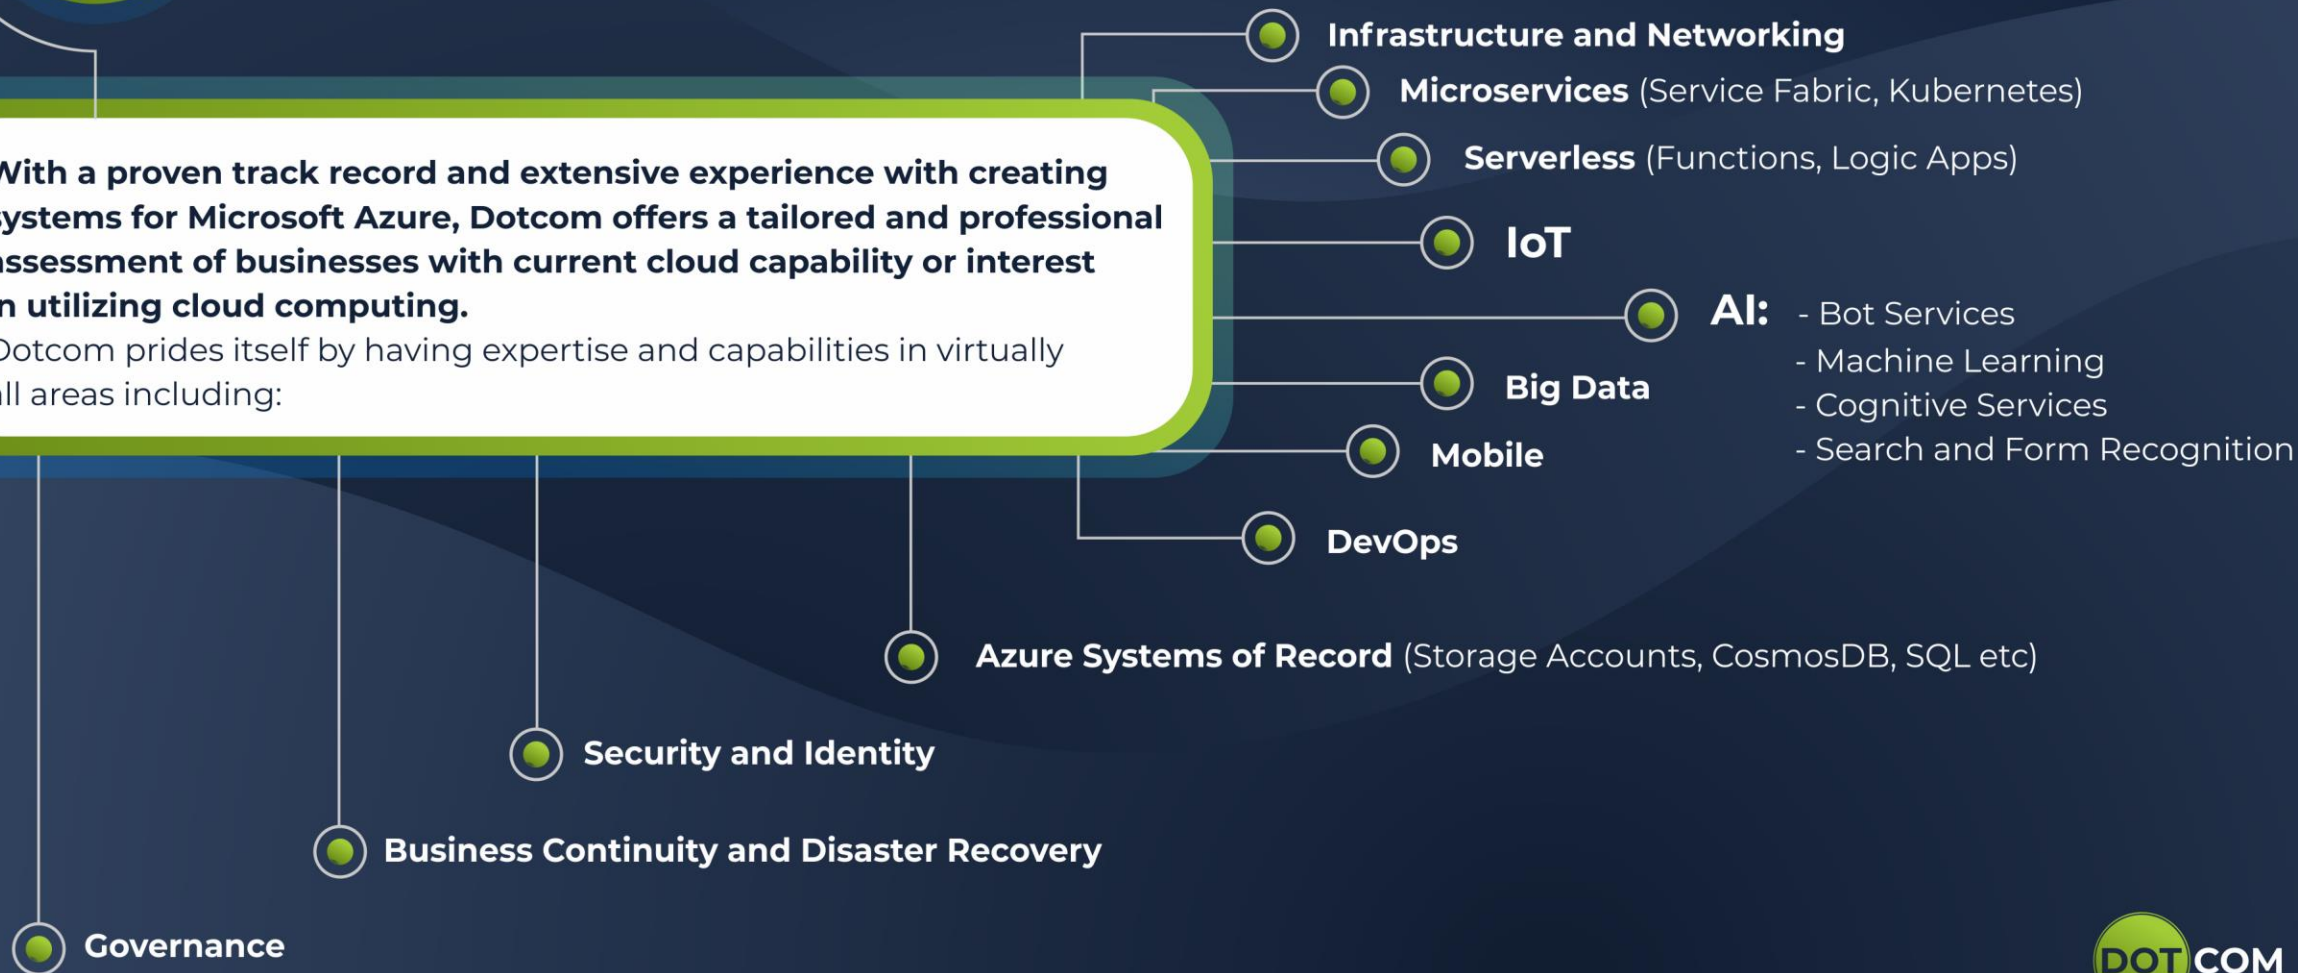

CLOUD ARCHITECTURE AND OPERATIONS ASSESSMENT

Cost: one-week assessment R 64 000 (excluding VAT) (estimate is complexity dependent)

With a proven track record and extensive experience with creating systems for Microsoft Azure, Dotcom offers a tailored and professional assessment of businesses with current cloud capability or interest in utilizing cloud computing.

Dotcom prides itself by having expertise and capabilities in virtually all areas including:

CLOUD ARCHITECTURE AND OPERATIONS ASSESSMENT

Cost: one-week assessment R 64 000 (excluding VAT) (estimate is complexity dependent)

What do you get?

We offer an as-is architectural assessment for clients with an existing capability and provide a suggested to-be roadmap according to best practices and operational efficiency.

For clients without a cloud capability, we offer an approach that may lead to either a cloud migration strategy, a direct cloud native (green fields) approach or a proposal for a proof of concept.

CLOUD EXPLORATION AND BUSINESS VALUE ASSESSMENT

Cost: one-day assessment R 15 000 (excluding VAT)

With a proven track record and extensive experience with creating systems for Microsoft Azure, Dotcom offers a tailored and professional assessment of businesses with current cloud capability or interest in utilizing cloud computing.

Dotcom prides itself by having expertise and capabilities in virtually all areas in the Microsoft Azure cloud including Office 365 and Dynamics 365.

CLOUD EXPLORATION AND BUSINESS VALUE ASSESSMENT

Cost: one-day assessment R 15 000 (excluding VAT)

What do we offer?

With business considering the perceived benefits of what Azure cloud could provide, Dotcom offers expert advice and guidance to bridge the gap between real value and perceived value.

We offer 1-day workshop where we get an understanding of the client business model and operations including points of concern in existing or lack of systems. During this workshop, Dotcom will share knowledge on how Azure cloud technologies help solve problems, modernize businesses and where value can be added to the client organization.
