

Customer Success Story

AccountingTeam is an accounting office in the Antwerp region.

Because they had no internal IT department, they asked Xylos as their partner to modernize their IT infrastructure and to come up with a solution that requires a minimum of maintenance.

To come up to AccountingTeam's demand and to prevent a high cost of new hardware infrastructure, Xylos proposed an all cloud solution for AccountingTeam. The VDI server infrastructure that contained all of the core business front-end applications was replaced by a full Windows Virtual Desktop environment on Azure,

Win Results

No more upfront hardware costs
