Standardized, Scalable and Modular Enterprise grade Azure Landing Zones

Kyndryl Cloud Build Services for Azure

Enterprises require a strategy with an integrated toolset architecture to build and manage enterprise-wide Azure public and private cloud landing zones. This, when done in a modular, repeatable and resilient manner makes the customers journey to Azure Cloud agile, efficient, and predictable.

Enterprises that build cloud native applications will outperform others

77%
Of enterprises say that they can develop and deploy applications faster on Cloud

86%
Of organizations report improvement in application performance

* Source: Estimates based on Gartner and IDC 2024 predictions for cloud managed services and professional services.

WHAT WE OFFER

Hybrid Infrastructure professional services enables your digital transformation journey by building a standard, scalable and secure Azure cloud platform using deep technology expertise and proven accelerators

- **Efficiency:** Accelerates time to build a scalable Azure public cloud with Kyndryl services with standard and optimized blueprints architected using cloud adoption frameworks.

- **Agility:** Driven through an agile delivery model employing DevSecOps principles for a security-rich design that is modular with end-to-end integrations to meet your custom needs.

- **Predictability:** Kyndryl has deep expertise in designing, architect and implementing the most modern, efficient and reliable technology infrastructure that the world depends on every day.

Our solution offers standard architecture templates and deployment mechanisms for typical workload deployments on both Azure public and Azure private cloud. These are modular and configurable allowing for tailored response to different solution needs and delivered by trained and certified professionals.

Kyndryl Cloud Engineering Orchestration and Automation

Orchestrating and Automation Services Using Azure

Cloud engineering solutions enabling enterprises to transform infrastructure and modernize the applications. Our Professional services can help you asses and materialize your journey to cloud.

.

75%

Of the applications that are non-cloud will move to the cloud in the next 3 years.

93%

of of businesses plan to engage third party experts in multiple aspects of their cloud deployments

* Source: Estimates based on Gartner and IDC 2024 predictions for cloud managed services and professional services.

WHAT WE OFFER

We offer a half day workshop to discover, analyse and provide an implementation plan for:

- Design and Deployment of vRealize Automation on Azure VMware Solution (AVS)
- Design, deploy and configure OpenShift on Azure (AVS)
- Design, deploy and configure Azure Kubernetes Services (AKS)
- Design, deploy and configure Ansible automation Services on Azure (AVS)

When the workshop is complete, you will have:

- A high level plan for Design and Deployment of any one of the afore mentioned platform which best fits your needs
- An understanding of our automation and orchestration capabilities that you can avail
- An initial estimate of the overall costs for the design and deployment of the platform along with recommendations on next steps to move forward

Why Kyndryl?

kyndryl.

- Kyndryl has decades of experience working with customers to deliver enterprise-grade workload analysis, migration, implementation, and managed services for the most complex workloads

- Kyndryl has the people, processes, and technology to help organizations progress their digital transformation journey using intelligent data and AI-driven insight

Our people:

90,000
Skilled professionals

247,000
Skills badges earned, including:

    61,000 in cloud
    43,000 in agile
    43,000 in analytics
    42,000 in AI
    38,000 in Design Thinking

31,000
Vendor-recognized certifications in Microsoft Azure, VMware, Cisco, Red Hat, AWS and more

2.9M
Hours of training in first half 2021

Powering mission-critical technology systems across essential industries

5/5 top airlines by revenue passenger miles (RPM)

45% of passenger cars made by our customers

61% of assets under management by the top 50 banks managed by our customers
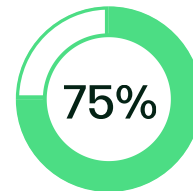

4/5 largest retailers

49% of mobile connections managed by our customers

*2019 numbers

Empowering thousands of customers

4,000
Global customers, including:

75%

…of the Fortune 100 and more than half of the Fortune 500

Providing undisputed leadership

6.1M mainframe installed MIPS

270K network devices managed

5,200+ WAN devices managed

3.5M LAN ports managed

67K+ VMware systems managed

14K+ SAP instances managed

3.5+ exabytes of customer data backed up annually

Microsoft Azure

Kyndryl works at the core of businesses that move the world. With more than 90,000 skilled professionals operating in over 100 countries, we design, build, manage and modernize the mission-critical technology systems that the world depends on every day.
