RPA for Healthcare Organizations

Save time and money by automating routine tasks

1/8/21

Exelegent

Optimize costs and improve productivity of your Revenue Cycle Operations

A lot of healthcare teams are still dedicated to the mundane, robotic tasks which make up most of the administrative side of healthcare (ex. checking the status of claims, verifying eligibility verification, etc.)
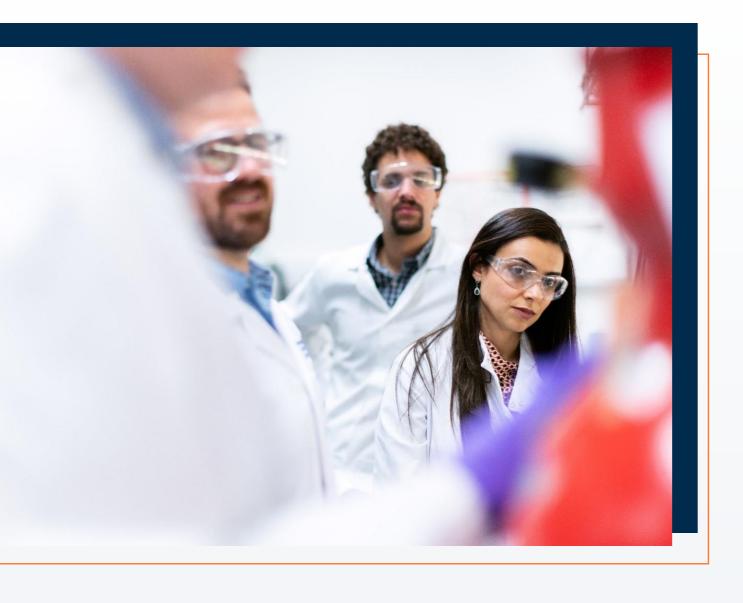

CHALLENGES

The backlog of administrative work is always there, which leads to employee burnt-out and increased administrative costs

IDEAL SOLUTION

Empower your employees with low-code automation to eliminate hours spent on performing rote tasks and allow them to focus on what matters the most - patient experience

DESIRED OUTCOMES

Healthcare teams may expect immediate cost savings from 5 to 10 percent and in long term as much as 30 percent allowing the organization to boost productivity and grow in new powerful ways

Exelegent

Exelegent's Robotic Process Automation (RPA)

Alleviate the burden of monotonous and time-consuming back-office functions that healthcare organizations face every day with Revenue Cycle Management knowledge and RPA technology behind. It's time to empower your people to drive more business value!
