

Advantages of Using Citrix® Apps and Desktops ON MICROSOFT AZURE®

Workspace Experience: Includes Windows® Virtual Desktop (WVD) workloads within Citrix Workspace™ for central access to all apps, desktops and files.

Image Management: Simplifies management by layering OS, apps and user data on WVD resources, and rapidly provisioning updates.

Environment Management: Optimizes host performance, accelerates application delivery, and enhances scalability for WVD.

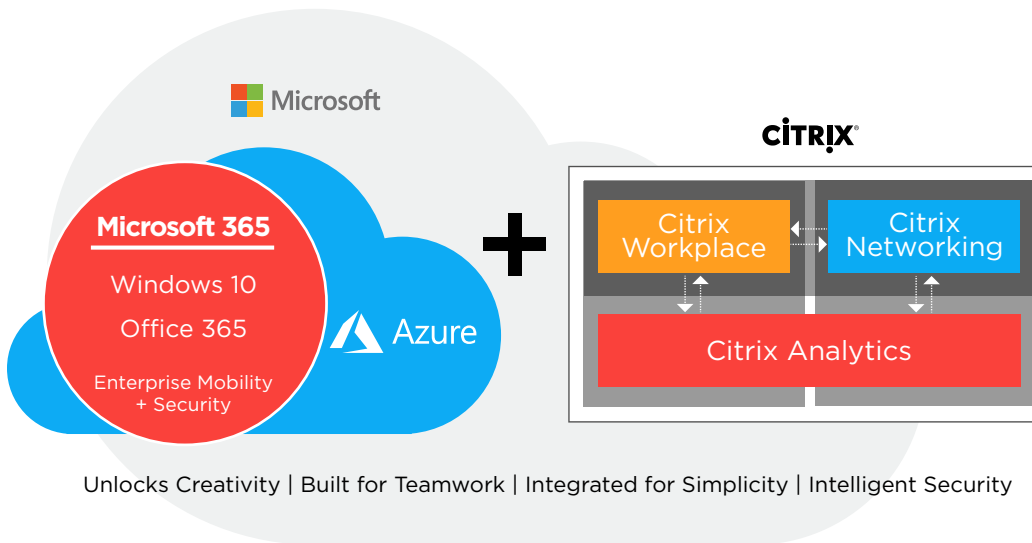

Hybrid Cloud Journey: Accelerates the move to Azure for on-prem clients by enabling management of on-prem and WVD workloads from one console.

Accelerated Performance of Azure Virtual WAN: Reduces branch and remote connectivity costs and enhances security at the app and network level.

Advanced Analytics: Collects real-time analytics information and correlates to instantly address performance issues and security threats.

Microsoft Expertise

- Azure
- Azure DevOps
- Office 365®
- Artificial Intelligence
- Data Platforms
- Power BI®
- Security
