

Take the first step up to the Cloud

CloudPrep Services

Telelink Business Services is the biggest and most modernized System Integrator in Bulgaria and one of the biggest in the CEE region. We provide end-to-end Data Center and Cloud Services. Our services cover the whole IT and we are one of the few who support the full cycle from Design, Planning and Implementation to Managed Services in compliance with Enterprise's best practices.

WHAT WE OFFER

With over 18 years on the market, extensive track record of successful projects delivered across multiple industries we are proud to offer our consultancy services in order to enable a fast and easy transition to the Cloud.

We support businesses in the most important part of the journey – assessing the Cloud opportunity and planning the transition.

Our CloudPrep services enable your business to leverage the benefits of the cloud and become more efficient, cost effective and agile evaluating and selecting the most appropriate approach and technologies specifically aligned with your needs and goals.

WHAT OUR CUSTOMERS ARE SAYING

"Telelink Business Services's CloudPrep solution, helped us to define Azure migration approach and deployment plan. Their extensive Azure knowledge and continuous support allowed us to go through the complicated migration process seamlessly. By utilizing the scalable cloud business model, we stay competitive, meet ever changing demands and grow quickly. Thank you!"

Microslav Gechev, CEO, Develiot
