

PowerApps, Flow & CDS

1-week POC

**An evaluation engagement that creates a PowerApps, Flow & CDS POC based on your requirements **

This limited implementation is designed to evaluate if PowerApps, Flow & CDS Platform is right for your organization's Business Application initiative.

We will create a PowerApps, Flow and CDS solution using your business requirements and show how all three technologies work together to give you a modern business application solution that runs on any platform

This Proof of Concept implementation can be expanded to your production environment.

Deliverables

- Provisioning of PowerApps & Flow License
- Setup & Creation of PowerApps UI
- Setup & Creation of business process workflow using Flow
- Setup & Creation of Data Model & Entities using your CDS
- Show capabilities of Microsoft Power Platform
- 2 hours of training

Agenda

- Day 1** | Kick-Off meeting with you, review of your current Business process and finalize the scope of POC with you.
- Day 2** | Provisioning of PowerApps & Flow License, creation of environment and creation of PowerApps UI.
- Day 3** | Setup & Creation of CDS Data Model and connecting Data Model with PowerApps UI.
- Day 4** | Setup & Creation of Business Process Workflow using Flow and integration with PowerApps UI.
- Day 5** | Final walkthrough of the end to end solution with you, training, Proof of Concept closure, and planning of next steps.
