

PowerApps Maker Enablement

In-Person & Remote Training
4 Weeks

PowerApps Maker Enablement

This four-week on-site and remote training session combines classroom learning, hands-on labs, assessments, and real-world app development. It's an immersive experience for your team that will equip employees with the skills they need to become able PowerApps and Flow makers, provide your system administrators with proper guidance and best-practices around governance and security, jump-start app and flow creation, and offer next steps. Attend this comprehensive course and you'll walk away with everything you need to confidently leverage Microsoft PowerApps to support your digital transformation.
