

AzWatcher

The AzWatcher review looks across your current Microsoft Azure and hybrid cloud footprint with a view of security, governance, and compliance, with actionable recommendations to strengthen your security posture.

Secure your cloud estate

Improve security posture, enhance compliance to applicable standards, and position operations for zero-trust, defence in depth security through our tailored assessments and recommendations.

Why Eighty20?

Large cloud transformations are complex, with many avenues, technologies and methodologies. Eighty20 solutions has successfully deployed Microsoft cloud solutions through our end-to-end delivery process from discovery, design, build, migrate, test, and change / adoption. Realise benefits sooner by moving to an enterprise cloud platform and operate securely.

HELP YOU GET THE MOST FROM

90+ TEAM MEMBERS

Gold Microsoft Partner

\$45m TRANSFORMATION DELIVERED

100% AUSTRALIAN OWNED

What you can expect?

- Flexible engagement models – one-time or subscription based on your requirements
- Trusted advice – we focus on what matters and avoid technical “gold plating”
- What you see if what you get – our delivery team has performed these assessments for many Australian clients and brings real world experience and expertise

Benefits & Outcomes

- Comprehensive Azure Security check and Compliance validation – covering infrastructure, network, application, endpoint, and DevOps lifecycle
- Actionable recommendations – next steps with optional implementation proposal

More Azure offerings

- AzNavigator – helps you build a cloud strategy
- AzTransformer- helps you to migrate and transform
- AzWell - helps you to optimise cloud footprint
