

# Our team of experts will deploy Azure Virtual Desktop (AVD) as and when you need it

## ABOUT AVD DEPLOYMENT:

At Finchloom—a Microsoft Gold partner—we prioritize your customer experience. We take pride in being a one-stop shop for all your Azure needs, regardless business size or type. By engaging with Finchloom, you'll get the service you need, completed on-time and on-budget.

### *What can we do for you?*

*We offer strategic assistance in many areas, including Azure Virtual Desktop infrastructure and security. Deploy new systems quickly and train your employees to use them effectively. Our professionals are always ready to help your business thrive.*

## WHAT WE OFFER

We have the Microsoft experience and expertise to deploy AVD efficiently and enable secure remote work..

With AVD, employees receive a virtualized experience fully optimized for Windows 11 and Microsoft 365. Applications and data are both secure and compliant with proactive security measures that detect and remediate automatically.

We make deployment and management of your AVD Infrastructure easy and provide the ability to scale quickly based on your business specific needs.

AVD enables organizations to employ BYOD (bring your own device) and allows users to access desktops and applications from their own devices.

Finchloom as a CSP will assist your business to choose the right virtual machine to optimize your performance and leverage multi-session capabilities to run multiple concurrent sessions and save capital.
