PROJECT SUPERNOVA
SOLUTION BY VST-ECS
POWERED BY AZURE WINDOWS VIRTUAL DESKTOP

Windows Virtual Desktop

Why Project Supernova?

Its a Solution!!

Powered by Azure Windows Virtual Desktop
+
Implementation with support by VST-ECS

More info

Here its five benefits

Enable secure and productive remote work on any device
Windows Virtual Desktop provides full Windows 10 and Windows Server desktop and application virtualization on personal devices from any internet-connected location.

Reduce costs of licensing and infrastructure
Use eligible Windows or Microsoft 365 licenses to access Windows Virtual Desktop and pay only for what you use.

Protect against outages to stay productive
Help keep your team running during outages by leveraging built-in Azure Site Recovery and Azure Backup technologies.

Simplify IT management
Windows Virtual Desktop manages the virtual desktop infrastructure (VDI) for you, so you can focus on users, apps, and OS images instead of hardware inventory and maintenance.

Keep application and user data secure
Reduce vulnerabilities and help keep your virtual desktops secure by leveraging reverse connections and security solutions like Azure Firewall, Azure Sentinel, and Azure Security Center.
