Seidor IoT Center
from innovation to business

Microsoft Azure

ABOUT SEIDOR IoT CENTER:

Development ad deploy of business applied IoT and IIoT solutions, Azure consultancy and third-party solutions migration services. We apply in all our developments our BEST methodology (Business Oriented, Expert Profiles, Scalable Solutions, Trusted Resources)

SERVICES

IoT Asset Monitoring
- Connectivity Assessment
- Embedded Firmware development
- Azure IoT Platform development
- IoT Business Consultancy
- IoT Managed Services
- Data modelling and transformation
- IoT applied Data Analytics and AI
- Multiplatform UX development

IIoT Solutions (IT/OT)
- Industrial Automation
- OT Interoperability (PLC / SCADA / MES)
- Sensors and Edge computing
- Plant Control Centers
- Machine Learning and predictive
- Process consultancy and RPA

Replatforming
- Business consultancy
- Integral Azure consultancy
- Data and devices migration
- Advanced Managed Services
- Cyber –Security

CAPABILITIES

Specialized team in IoT, IIoT and industrial automation
- .NET Cloud Developers
- Embedded Firmware Developers
- Angular / React Developers
- Data Scientists
- Expert IoT Project Managers
- DevOps Specialists
- Managed Services Analysts
- OT Technology specialists

Experience in production grade IoT solutions for business
- Developments on market from 2017
- +20 deployments done
- Integrated in the Innovation centers of Seidor (Europe, Israel, USA, Latam).
- Expert partners in IoT Hardware and industrial automation

Two competence centers for Seidor IoT Center
- Delivery and services in Barcelona
- Industrial development and validation environment in Tona

WHAT OUR CUSTOMERS ARE SAYING

"The current technology, with sensors to evaluate each wash cycle with the help of Microsoft Azure IoT, allow us to achieve the maximum performance of our solutions, while also launching pay-per-use models, advancing our commitment to environment saving millions of litres of water worldwide and making commercial decisions based on data obtained in real time…"

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
