

AzureSimple Roadmap Workshop

Ask the Experts: Analyze your Azure and discover new opportunities

The **AzureSimple Roadmap Workshop** is designed for customers of AzureSimple in order to evaluate their existing Azure environment together with the cloud experts of SoftwareONE and thus open up new potentials for the use of Azure.

The following areas can be part of the workshop:

- Architecture** - Identification of optimization potential according to Microsoft & SoftwareONE best practices.
- Security** - Overview of the identity providers used in Azure and definition of recommendations for action (Azure Identity, B2B) or review of resources based on defined guardrails of the common security catalogs

- Cost** - Evaluation of resources and examination of prerequisites for possible cost optimization approaches with FinOps.
- Innovation** - Verification of existing services in terms of innovation, end-of-life as well as derivation of recommendations for action and identification of cloud candidates from the OnPremises environment.

As a result, you will receive a qualified overview that will help you figure out where you currently stand and how you can most easily realize new plans with Azure.

AzureSimple Roadmap Workshop

This is what we do in detail:

Setup & Analysis with PyraCloud 1	Session with Azure Architect 2	Presentation of Azure Roadmap 3	Recommended next steps incl. cost indication
