Program

Day 1

Introductory workshop

Definition of expectations and scope, introduction to the WVD concept, Azure environment review, and preparations for the PoC project plan and WVD design.

Day 2-4

Implementation & learning

Create WVD tenant, WVD Accounts, user groups and Azure resources. Link your AD to AAD with AD Connect – or install AADDs - and set up access rights. Deploy Host Pools showcasing Windows 10 multi-session Office 365 non-persistent desktops, Windows 10 Office 365 persistent desktops and Remote application functionality.

Day 5

Final proposal workshop

On the last day of the kickoff, we complete the final project proposal together.
