

Intelligent Automation Strategy 1 Day Workshop

Deploy an intelligent automation strategy in your organization through a comprehensive program with Reveal Group's Blueprint for Scale.

Reveal has developed a multidisciplinary approach on how to establish and deploy an intelligent automation strategy in your organization.

This framework addresses basic concerns such as training according to different maturity levels in the organization, but also defining an automation life cycle model for low code to determine the process to create and deploy, defining governance mechanisms such as who can create in the organization, prioritizing of ideas and resources to defining components libraries while proving change management, program management, and support.

What We Will Cover

Understand the elements of IA

Identify your goals and objectives

Understand the potential of the Power Platform and how it can help answer business need

Discuss automatable scenarios, use cases, and limitations

Address IA Operating Model common risks and mitigation measure

This one-day workshop is designed to assist you with envisioning and executing on your business objectives, following a proven innovative approach to strategy creation and execution. The workshop concludes with a clear, actionable plan of how we can help you reach your business goals with the implementation of Microsoft's Power Platform, featuring Power Apps and Power Automate.
