

A 3-day Assessment Workshop Co-funded By Microsoft, To Help Enterprises Understand Their Current Security and Management Postures

Assessment Overview

FyrSoft’s 3-day Assessment helps customers understand the current security and management status of their remote devices. As the assessment outcomes, customers will be provided with

- Discovery, Analysis and Documentation of the Customer’s Current State
- Roadmap to a Matured Remote Device Security & Management Strategy
- Cost-Optimization Plan

Our 3-Day Assessment

Funding Information

FyrSoft brings this Assessment program at no cost to the customers. We join hands with Microsoft to leverage the funding programs available.
