

CONSTRUCTION IS DIFFICULT

REWORK EATS YOUR PROFITS

YOUR QUALITY ASSURANCE TEAM DOES MORE NOW THAN EVER

QUALITY ASSURANCE TODAY

A CHECKLIST ABOUT CHECKLISTS: SIGNS YOUR QA CHECKLISTS AREN'T WORKING HARD FOR YOU

- 1 Your QA checklists are submitted...eventually.
- 2 Your team collaborates well--once they find the errors.
- 3 Your checklist scores are great but your rework numbers aren't improving.
- 4 Accuracy, Efficiency, Documentation. Pick 2.

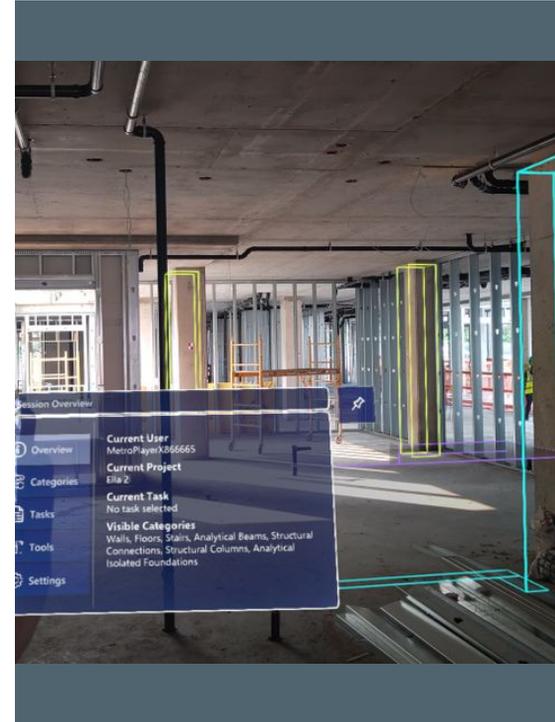

ARGYLE AUTOMATES YOUR QA

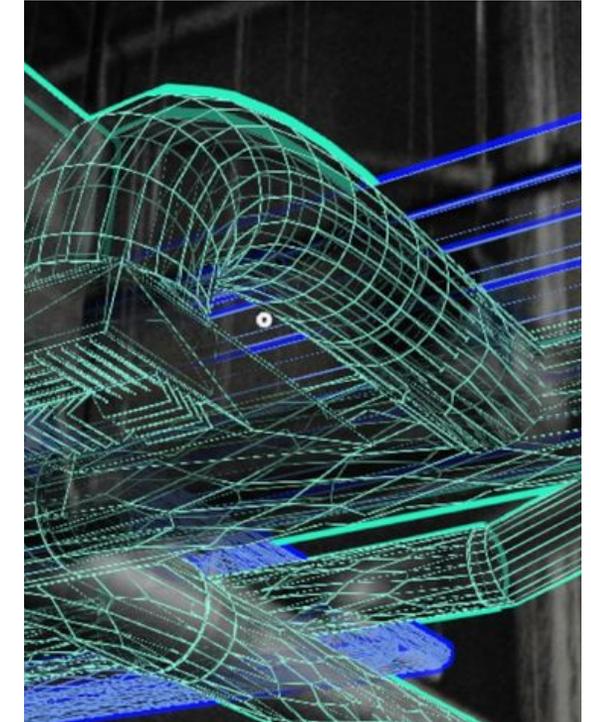

Reduce Rework
Promotes First time Quality
Easy Track Errors

Enhance
Communication
Common visual language for
Stakeholders of all experience
levels

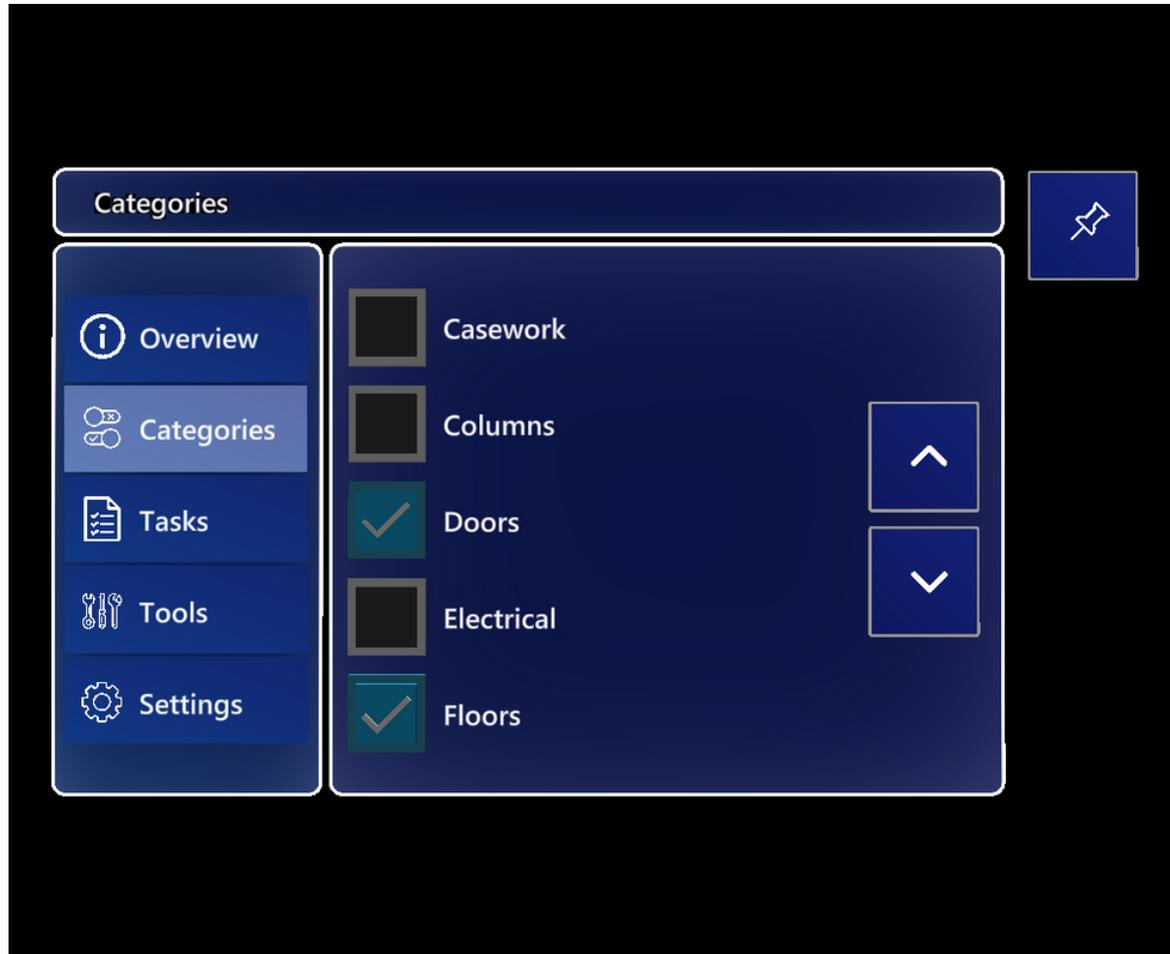

Increase Timely
Submitted Checklists
Checklists done on time and
correctly for data driven QA

Bring BIM to Life on
Site
No experience necessary. Not
with Bim, Not with construction,
not with AR.

EASY TO USE CONSTRUCTION QA

Leveraging the tools you're already using.

Argyle Main Menu

Overview your project

Toggle categories on and off

View latest task lists

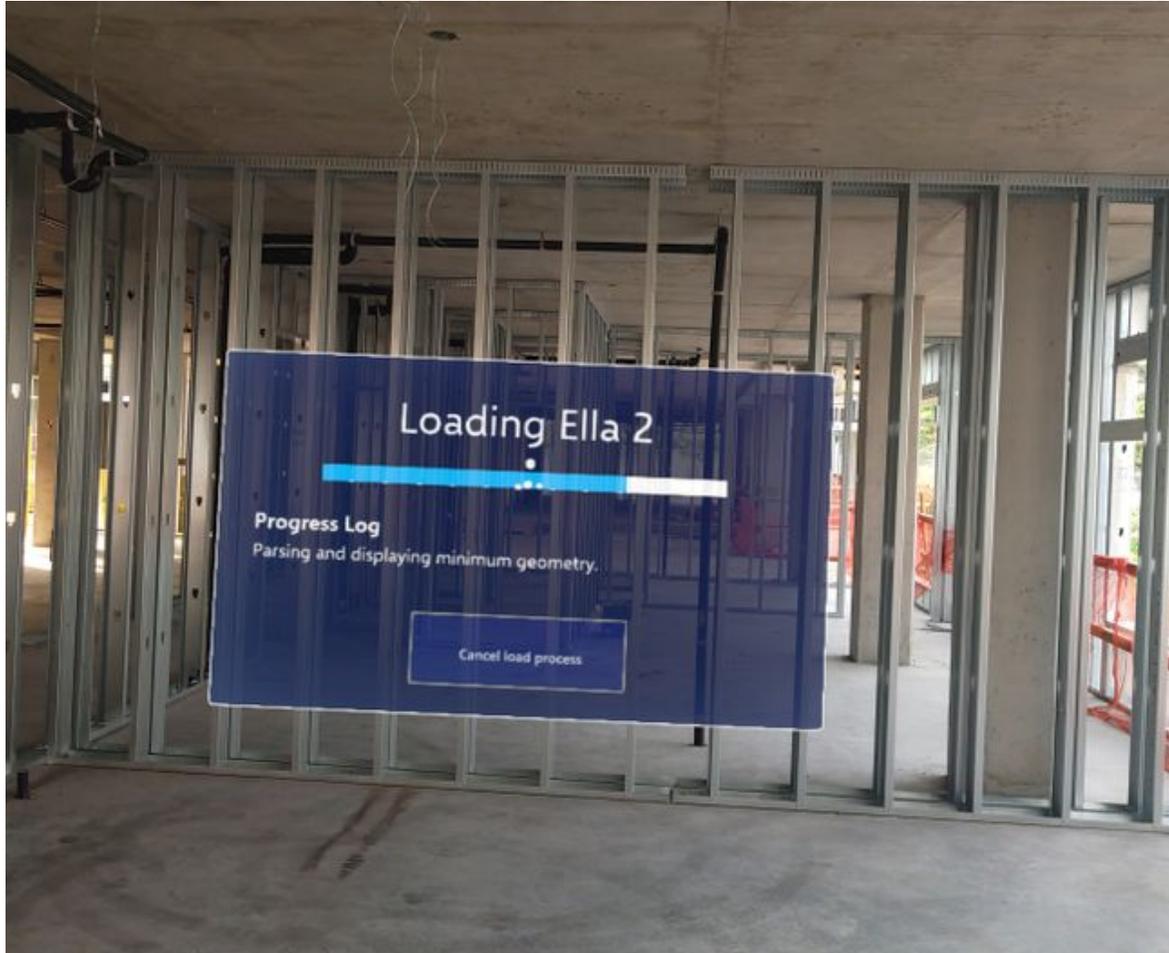

Adjust alignment and measure in tools

Switch between projects and models in settings

Brand-able if Basic Blue isn't your Thing.

EASY TO USE CONSTRUCTION QA

Leveraging the tools you're already using.

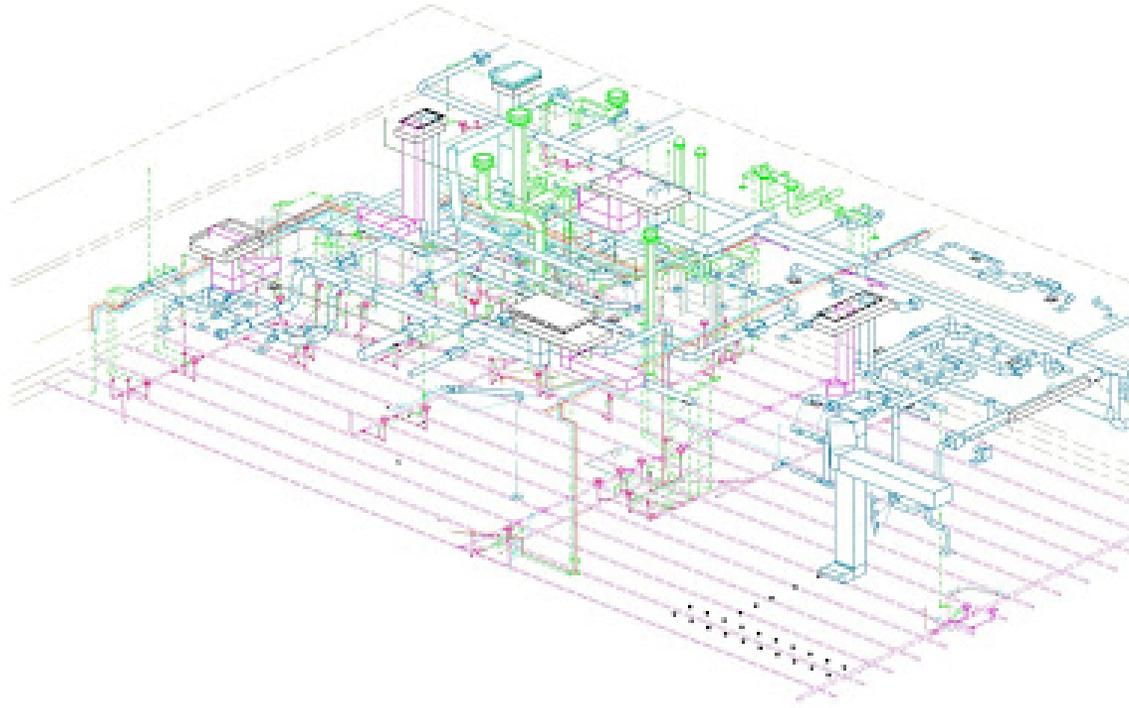

Updates on Site from
your Cell Phone
Internet in >1 min

Efficient storage and processing of complex construction data, Securely on Argyle's Azure Cloud backend

Export interaction data to project management software of choice.

EASY TO USE CONSTRUCTION QA

Leveraging the tools you're already using.

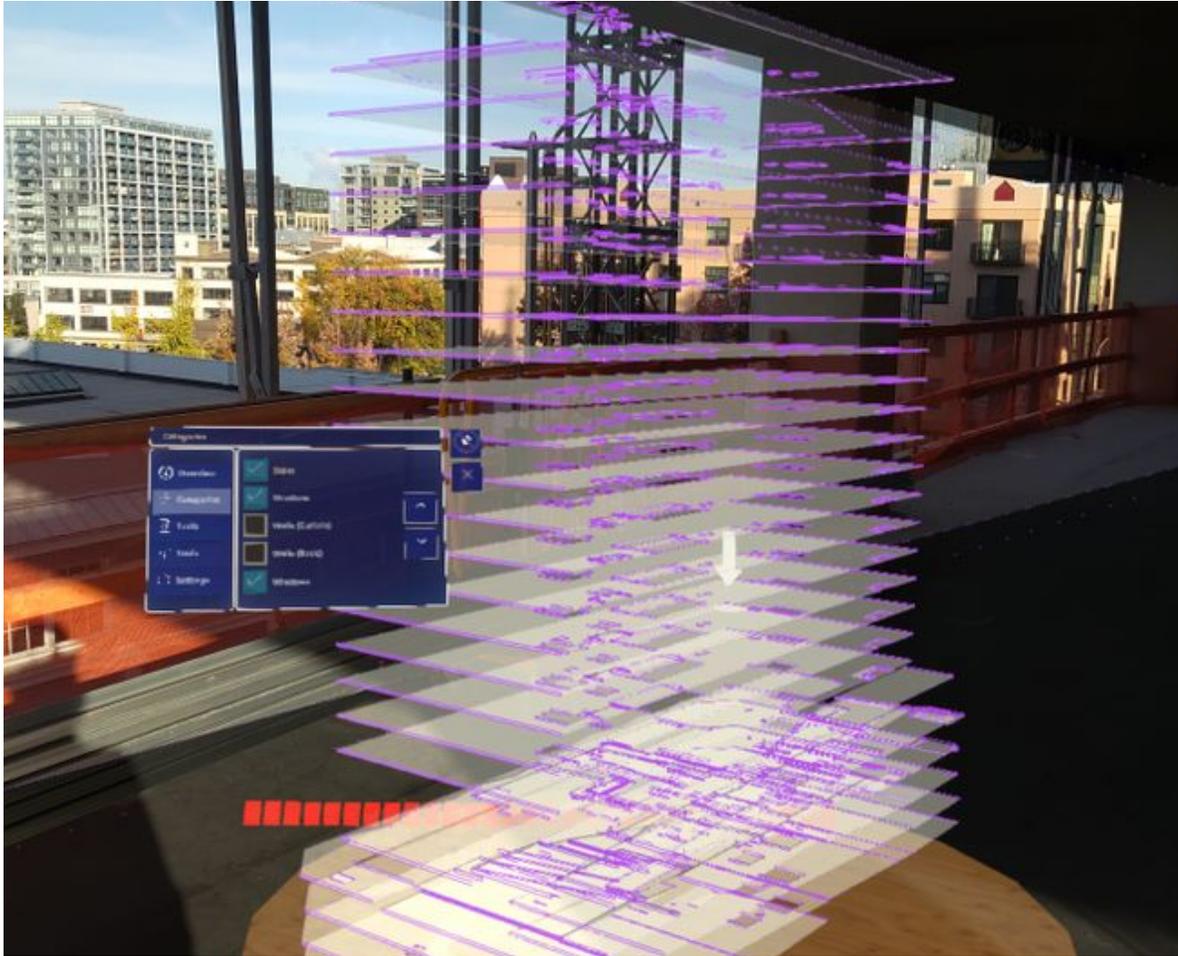

Send Updates from Revit

One click model and task updates from Revit with Argyle's Revit Plugin

3 Click Upload from Revit View > Argyle - Upload Model >

EASY TO USE CONSTRUCTION QA

Leveraging the tools you're already using.

Alignment anywhere on site

Argyle's Holomap helps you do quick setup and keeps track of your location and building elements

EASY TO USE CONSTRUCTION QA

Leveraging the tools you're already using.

Edge Rendering Visualizations

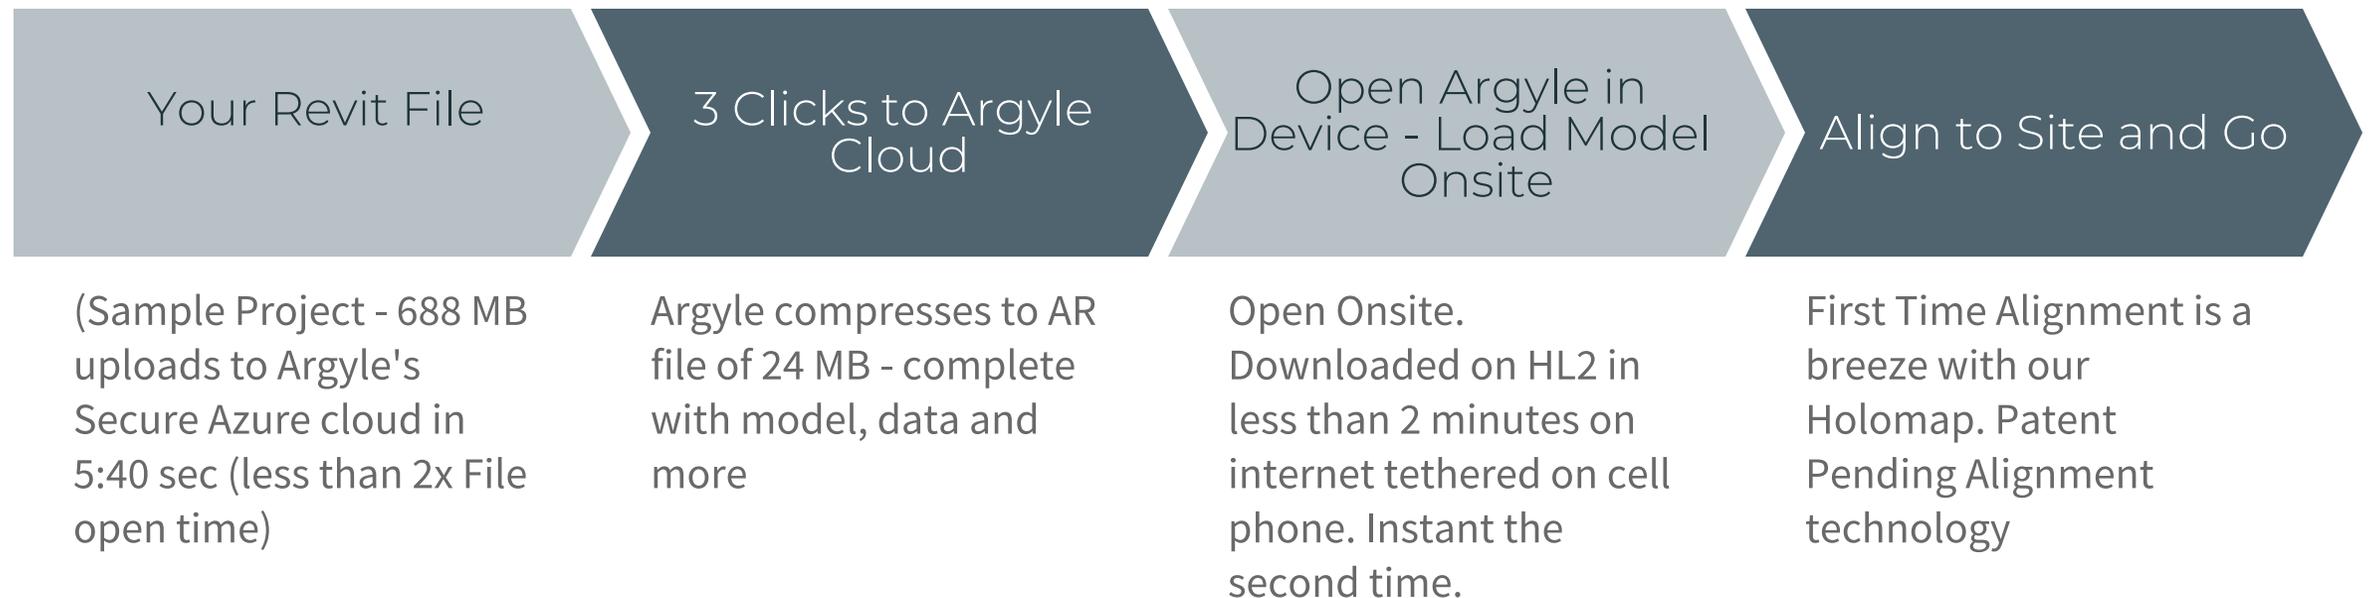

Building elements appear in colorized edge rendering - providing ultimate visibility and safety onsite

REVIT TO ALIGNED HOLOGRAMS IN MINUTES

With a few familiar clicks in Revit, your models are AR ready.

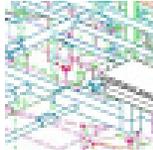

Revit to aligned holograms on site in minutes.

Don't have Revit? We're adding new integrations all the time.

ARGYLE TECH: INPUTS AND OUTPUTS

Your Inputs

Revit Model

No conversion or file-prep necessary, file format is purpose-built for fast, data-rich, one-click, full-model exports. New integrations coming soon.

Survey Coordinates

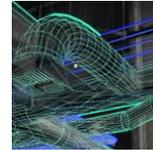

Do a quick visual alignment for demo quality, or send csv of Coordinates or other authoritative positions.

Checklists and Toggle Categories

Por que no los dos? With checklists and toggle categories you can see what's up with any room. As long as its in your model it's yours in Argyle.

Our Outputs

Scaled, Located Hologram

Once your model is uploaded it's always available in the cloud. Augmented Reality for builders without a lot of fuss up front.

Accurate , Self Healing Alignment

Smart, Patent Pending Alignment stays current throughout project and model changes. Argyle does alignment in the background so you can do Checklists and Inspections like Construction Tony/Toni Stark.

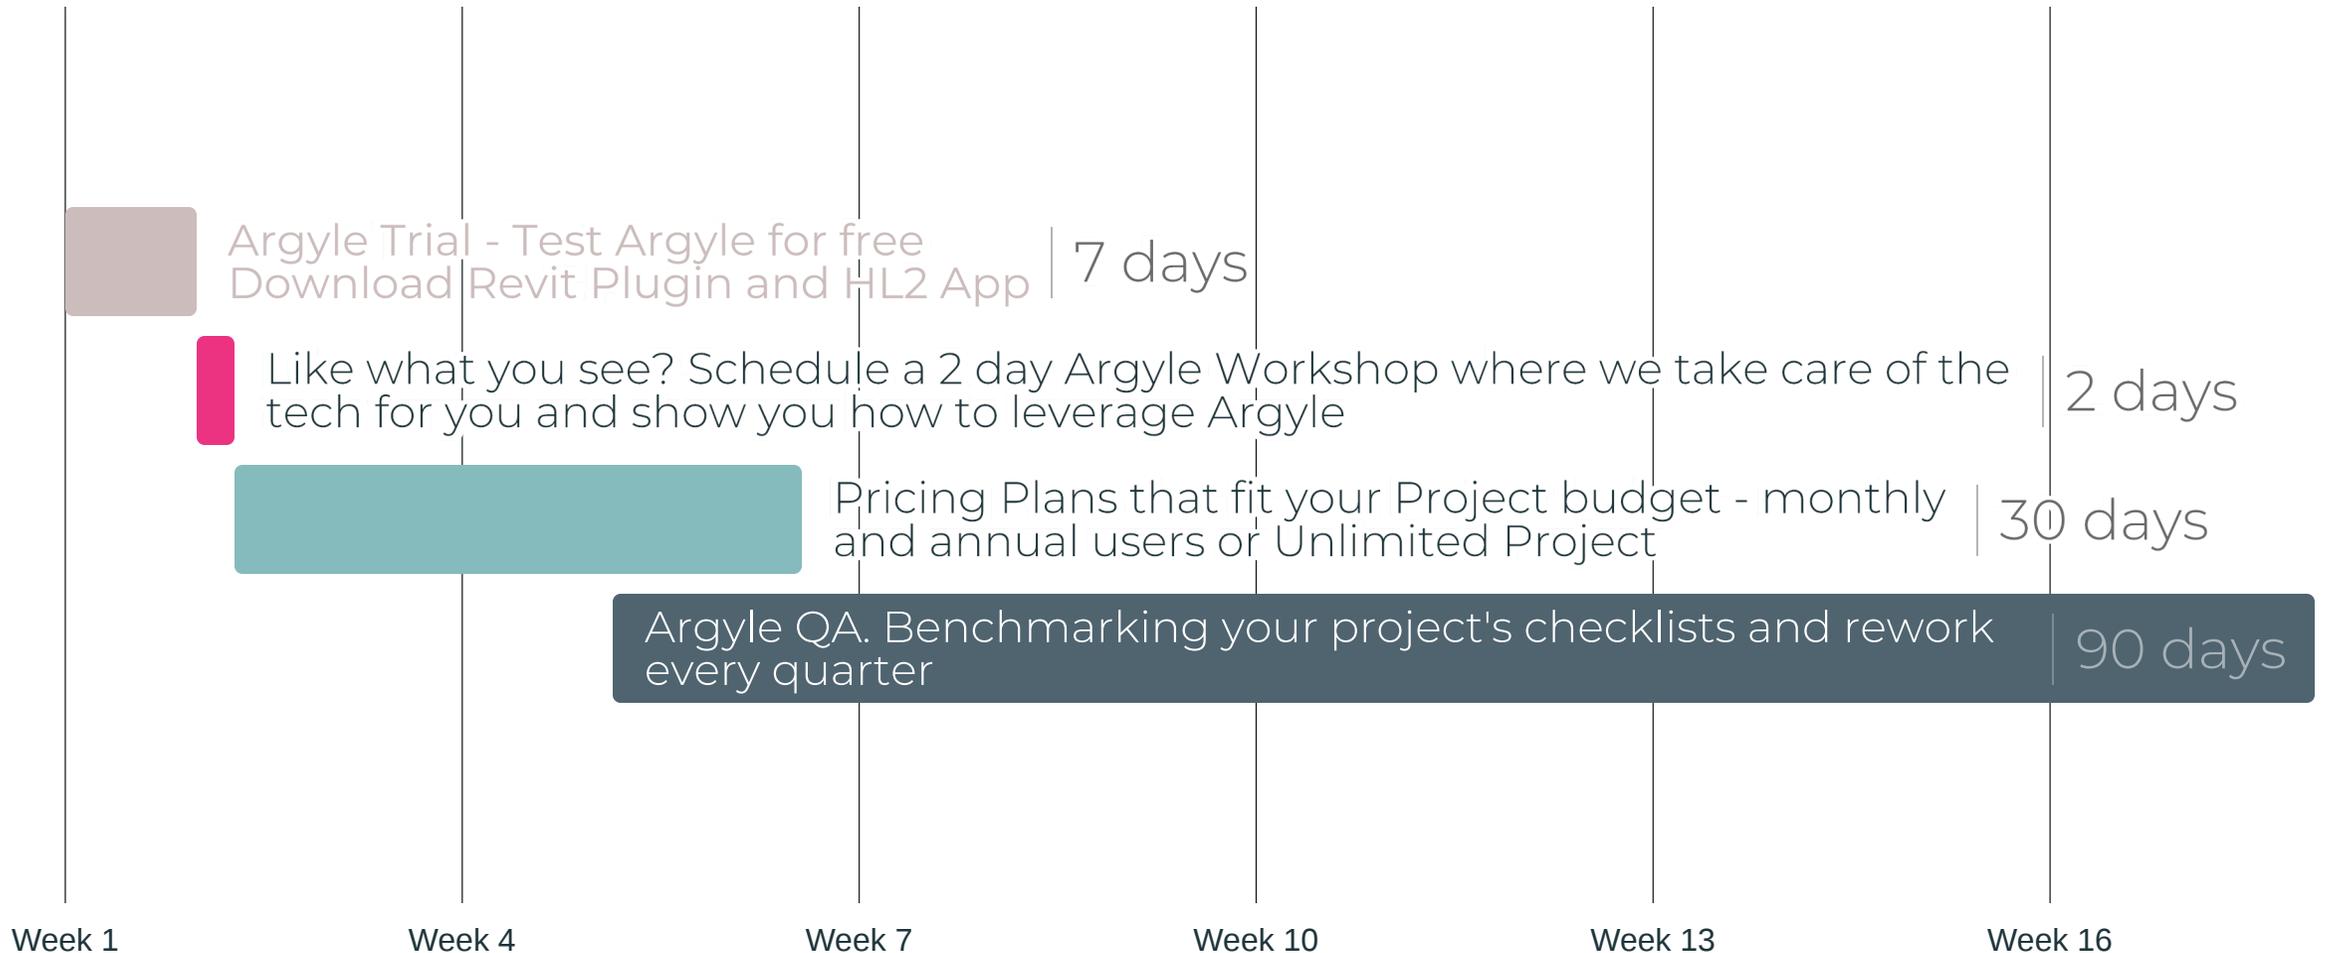

Actionable Documentation

Categories for everyone to promote first time quality and Checklists in context so you know why a build failed.

HOW TO TRY ARGYLE

Using Revit on your Project? Got a Hololens? You Qualify to try Argyle for Free.

WHY ARGYLE?

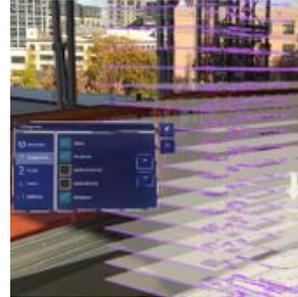

We're easy to use, easy to work with, and always improving.

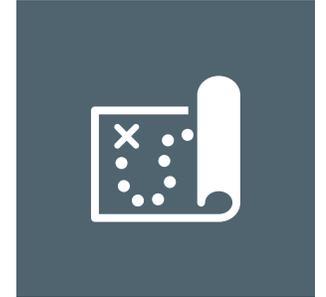

We strive to open up opportunities for women in construction.

Augmented Reality on the Secure Azure Cloud.

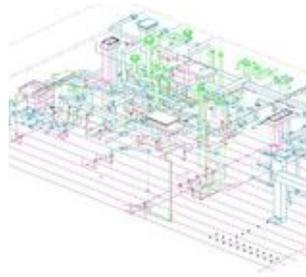

Spontaneous Reference Anywhere on Site

No Experience Required.

WHAT TO EXPECT WITH ARGYLE

30 minutes BIM Meetup

Let's Talk QA and BIM. What benchmarks do you want to reach? What standards do you need to model or how can you make the most of an existing model in Revit?

1 hour - AR onboarding

Argyle is easy to use, but AR is still unfamiliar technology to many. We've got your back. Join us for virtual or in person onboarding sessions. Live with Maret.

Get the Most of your Trial

Get weekly tips about how to use your Argyle subscription, get access to customer office hours and more.
