

Enable Azure

Adhere compliance to Microsoft Cloud Adoption Framework (CAF) & Well-Architected Framework (WAF)

Start your cloud journey with a compliant model and best practices, and grow

Leverage LiveRoute's expertise, experience and a consortium of solution partners to assess, design and build your enterprise network on cloud, compliant with Azure Well-Architected Framework (WAF) & Cloud Adoption Framework (CAF)

With years of experience and highly certified SMEs, you get the best of the services, guidance and variety of tools & technologies available to meet your requirements for connectivity, security, compliance and performance across premises, within cloud, multi-cloud, local reach or global reach.

Five Pillars of Well-Architected Framework to achieve architecture excellence:

Pillar	Description
Cost Optimization	Managing costs to maximize the value delivered.
Operational Excellence	Operations processes that keep a system running in production.
Performance Efficiency	The ability of a system to adapt to changes in load.
Reliability	The ability of a system to recover from failures and continue to function.
Security	Protecting applications and data from threats.

Design Right from Beginning

- ✓ Build great solutions with the Microsoft Azure Well-Architected Framework
- ✓ Architect infrastructure operations in Azure
- ✓ Foundational decisions, design Principles & guidelines

Assess, Build & Optimize

- ✓ Guiding Tenets for your architecture
- ✓ Examine your workload
- ✓ Operating Model Alignment
- ✓ Skills Alignment
- ✓ Performance fine tuning

Enable Azure

- Cloud Adoption Framework & best practices
- Well Architected Framework
- Recommended Architectures & guidelines
 - Designing for Cloud
 - Optimizing your Workload
 - Right Technology and Right Sizing
- Azure Landing Zone Establishment
 - Resource Organization and Cost Management
 - Skill readiness and team alignment
 - Identity and Access Management
 - Management & Monitoring
 - Business Continuity and DR
 - Security, Governance and Compliance
 - DevOps and Automation
 - Advance Networking
 - Azure Resource Manager
 - RBAC
 - Azure Policy
 - Azure Blueprint
 - Compliance Manager
 - Azure Monitor

Deliver value to business

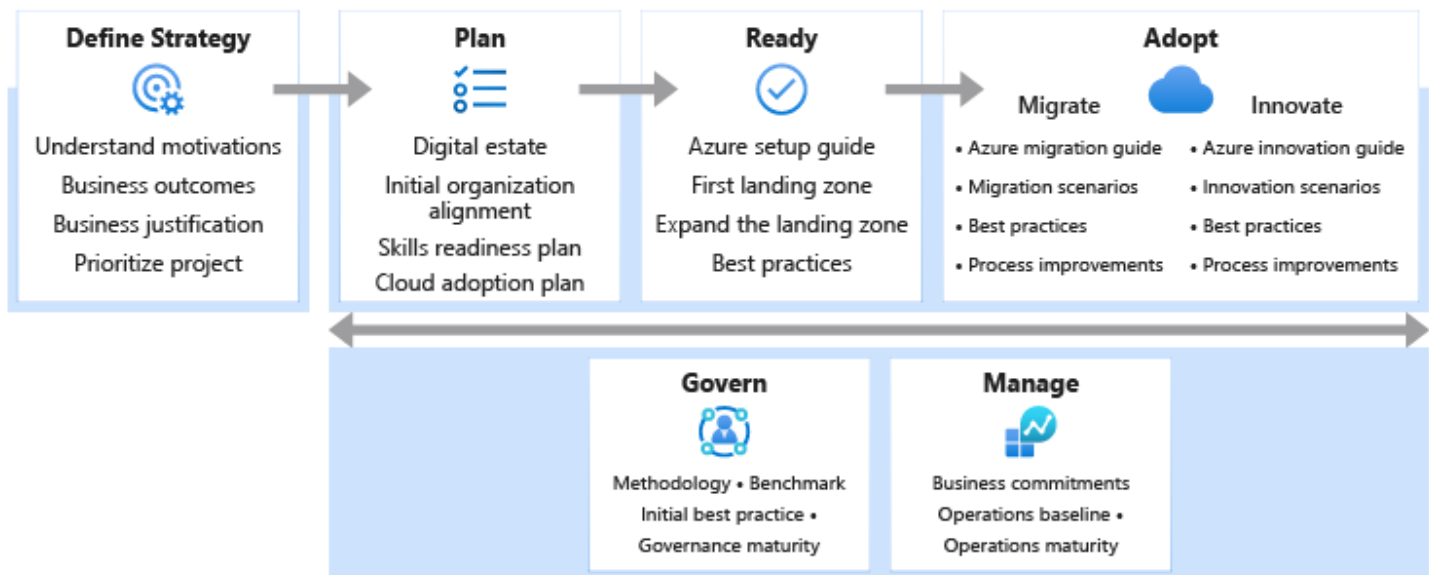

- Align foundation
- Accelerate adoption
- Improve controls
- Establish teams
- Define Corporate Policy
 - Cost Management
 - Security Baseline
 - Resource Consistency
 - Identity Baseline
 - Deployment Acceleration

How can we facilitate you?

-  Analyze your requirements and priorities
-  Assess your current digital estate and readiness
-  Define enhancement and deployment plan
-  Recommend next steps

Microsoft Cloud Adoption Framework for Azure

Why LiveRoute?

LiveRoute is a Microsoft Gold Partner and one of the first 100% cloud-based companies in UAE and have been successfully serving our clients since 2008. LiveRoute provide end-to-end services across Microsoft Cloud and on-premises starting from new deployment, to 24/7 support and managed services. LiveRoute help customer reduce costs, increase efficiency, productivity and compliance by extending, migrating, re-architecting and rehosting the services in cloud.
