# WIZELINE

Modernizing Your Data Platform with Wizeline

Who We Are

Wizeline is a global technology services provider with operations in the U.S., Mexico, Vietnam, Thailand, Australia, and Spain. Wizeline partners with global enterprises and scaling startups to build high-quality digital products and platforms that accelerate time to market.

Our multidisciplinary teams have experience across the entire data lifecycle. We focus on measurable outcomes, partnering with our customers to modernize core technologies, mature data-driven capabilities, and improve user experience.

Get Your Modernization Roadmap

Wizeline supports the entire journey for companies to become data-driven, helping them to design and build next-generation cloud data platforms.

The Cloud Foundations Workshop is Wizeline's framework in which a multidisciplinary team assesses business and technology needs and develops a clear roadmap to modernize your data platforms leveraging Azure cloud solutions.

The main outcome of the 3-8 week workshop is a plan for the desired high-level future state, including a clear roadmap for selected workloads to move and/or integrate to the cloud.

Wizeline's mission is to partner with customers to increase flexibility and scalability while improving business continuity and cost-efficiency.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
