Secure Productivity happens **in the cloud**

And we can help you on your **way**, the **CloudWay**

- CloudWay is a team of **highly skilled and passionate professionals**.
- We are passionate about **helping customers and partners succeed with Microsoft 365** and work in a modern way with **modern technology**.
- In CloudWay we focus on **continuous learning** and **sharing of knowledge** both internally and externally.
- CloudWay's focus is to **remove blockers** and help you **combine existing services** with **cloud services**.
- Through our **experience** and **passion** for continuous learning and improvement, **CloudWay is your partner to the cloud**.

We can assist your business as advisors, project managers, trainers and hands-on for your customers and as your subcontractors.

About CloudWay Services

- The CloudWay services are organized in main areas of **what organizations can achieve** using the **Microsoft 365, Microsoft Viva Suite, Azure** and related technology, and not limited to these products and workloads.
- E.g., the **increased value** may be **achieved** when we **combine** the right **technologies** for the right **context and defined targets that we want to achieve**.
- Hence, the CloudWay services does not pin-point the technology details within the services. Which technology to achieve desired results depends on several factors, such as what the **organization's desired results and requirements** are. The combination alternatives are many. CloudWay is a team of **dedicated and passionate subject matter experts**. We will help you find the **right technology for the right things to do** and help you on your way – the **CloudWay!**
