Azure Landing Zone

The foundation to host workloads in your Azure Cloud.

The first step in provisioning your cloud environment is to build the underlying environment. Choosing which core components to use and implementing it consistently can be a challenge and will impact the future opportunities of your cloud environment.

WHY USE AN AZURE LANDING ZONE?

> **Prevent mistakes & inconsistencies**

> **Scalable and secure infrastructure**

> **Guaranteed correct configuration of foundational elements**

> **Easily innovate and build new workloads in the cloud**

What is an Azure Landing Zone?

The Azure Landing Zones provide multiple predefined sets of foundational tools based on your adoption needs. This enables you to easily set up new environments in a standardized way based on best practices. It consists of all the basic building blocks to ensure that your applications have access to the requisite components when implemented by covering topics such as policies, connectivity, security, etc.

What is the added value for you?

Seamless migration and deployment

Facilitate your migration

> Increase efficiency

> Common set of implementations

> Personalized solutions

Guaranteed internal compliance

Policy/governance controls

> Embedded Governance Guardrails

> Centrally managed structure

First-time-right configuration

Core infrastructure resources and services

> Consistency for each workload

> Reduction of overhead

> Fast scalability

AZURE LANDING ZONE

Our promise

> We fully support you in every phase of your migration to enjoy all the benefits of Azure Cloud.

Our offer

> We provide personalized landing zones based on your adoption needs to facilitate your migration to and future in the cloud.

Why choose Proximus?

Within our Strategic Partnership with Microsoft, we strive to be the reference Cloud Centre of Excellence for Microsoft Azure. In addition, we can rely on our own ecosystem of digital transformation experts. This puts us in a unique position to help you in your end-to-end digital transformation journey from providing the basic telco services to full transformation services.
