Silver Datacenter

The "Move your instances from AWS to Azure" package developed by Moresi.com, direct partner Microsoft Tier-1 level, allows you to easily, quickly and safely migrate your servers and databases from AWS to Azure. Relying on the power of such tools like Azure Migrate or Azure Site Recovery we can offer near real-time data replication and to choose between the best option to execute online or offline migration.

"Move your instances from AWS to Azure" is a complete solution to seamlessly move your data to Azure and take advantage of benefits offered by the platform.

WHY TO RELY MORESI.COM FOR AWS TO AZURE MIGRATION

Welcome to non-Microsoft systems

The "Boost your migration to Azure" package developed by Moresi.com, direct partner Microsoft Tier-1 level, allows you to easily, quickly and safely migrate your company workload in a full-cloud or hybrid scenario to Azure, the cloud computing platform created by Microsoft for building, testing, deploying, and managing applications and services through Microsoft-managed data centers.

A trusted Cloud

Migrate to Azure is not just a technical discussion. More than 95 percent of Fortune 500 companies use Azure to provide trusted cloud services.

Fixed price

Based on the number of servers, databases and applications to be moved we can calculate a fixed price to complete all the migration activities. Migration will be executed by a team of certified people that can speed-up most of the activities regardless the number of items.

FURTHER AZURE BENEFITS

01 Additional 3 years of extended security updates (ESU)

02 More global regions than any other cloud provider

03 Azure Hybrid Benefit

04 90+ compliance certifications
