DevOps

## Episerver Managed Services

Immeo removes the complexity of architecting, hosting and maintaining clients Episerver solutions with a professional services team consisting of experienced and certified Episerver architects, developers as well as certified Microsoft Azure architects and cloud operations engineers.

The service is offered to clients in order to ensure a profitable, secure and optimal settlement of their business critical Episerver solutions and their Azure platform and services.

Immeo offers a range of deployment and Azure infrastructure platform options for Episerver solutions, customized to suit every specific need.

The deployment options and their associated service levels will be customized in order to deliver optimal platform and application performance.

**Strategy** → **Assessment** → **Adoption** → **Management**

### Management includes:

**Cloud Operations Services**
- 24/7/365 Monitoring and Support
- Service, Change and Incident Management
- Cloud Platform Management
- DevOps Practice
- Application Performance Management
- Cost Management
- Service Delivery Management

**Application Management Services**
- Episerver Development, Support and Maintenance
- Release and Deployment Management

## BUSINESS BENEFITS AND OUTCOME

**Overall responsibilty**
Delegate responsibility of your Episerver solution – both Microsoft Azure and the Episerver application.

**Skills and capabilities**
Overcome the lack of Microsoft Azure skills and Episerver capability barriers.

**Total Cost-of-Ownership**
Decrease overall TCO by reducing the cost of development and operations significantly.

**Scaling and cost optimization**
Scale application on demand using auto-scaling features of Azure and optimize cloud spend.

**Performance**
Ensure higher application health and service availability.

**Agility**
Perform daily releases to deliver business value faster with Immeos application driven service approach.

## We create digital solutions that empower people and business
