

LMS PROFESSIONAL EDUCATION PLATFORM
FOR UNIVERSITIES

„ I checked,
I support,
I recommend ”

A handwritten signature in blue ink that reads "Maciej Orłowski".

Launch even in **1 day** the most intuitive of professional educational platforms for **universities**.

Implementation of the full process of remote education:
virtual classroom,
video, graphics, audio,
tests, quizzes, gameplay.

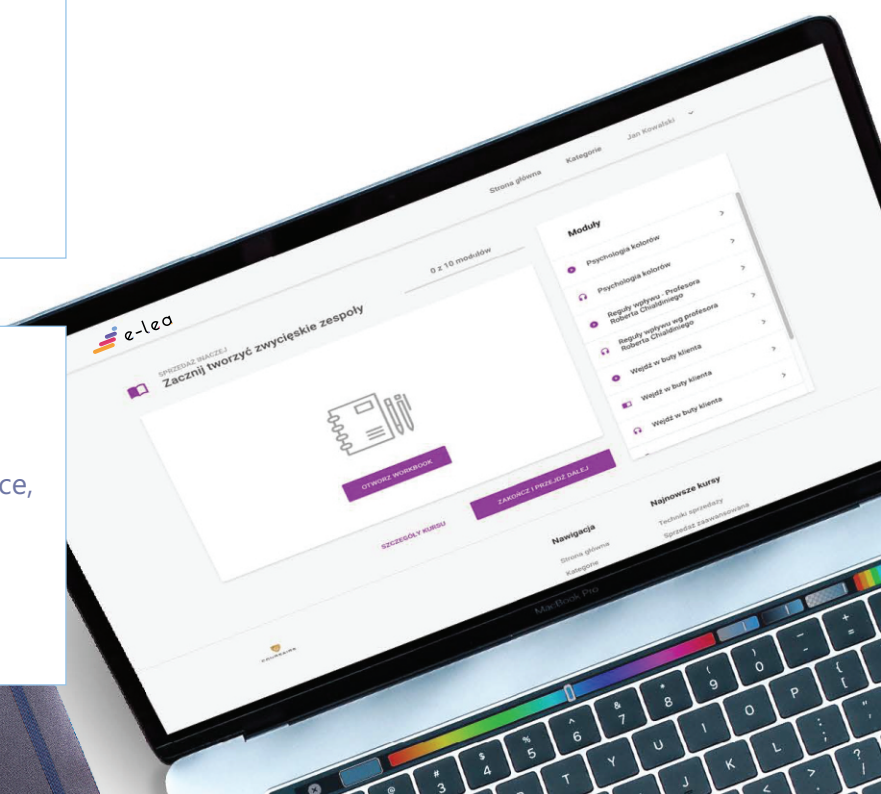

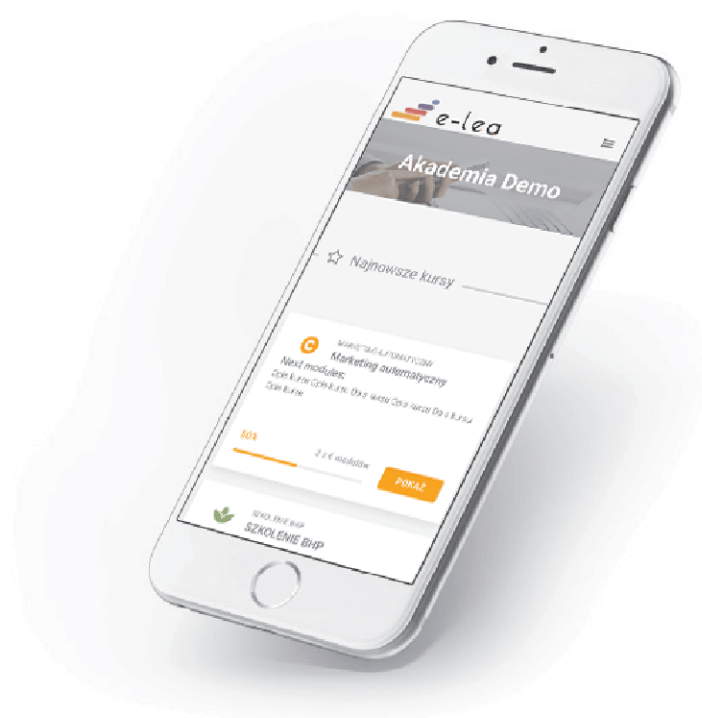

Built-in breakthrough communicator.
New dimension of group learning.
Better learning thanks to the functions of group building by teachers and communication with student groups.

Free mobile applications for Android and iOS - they work immediately after the platform is launched.

A breakthrough user interface.
Not only a pleasant learning experience, but also the most user-friendly way to place educational materials.

e-lea

Everything in the cloud
Microsoft Azure.
No more problems with your own
technical support servers.
Full support.

No limits:
- number of lectures
- number of users
- number of language versions.

Learning on any device,
in any place, at your own pace.

The tool to acquire students
by distributing and selling
online courses
made at the university.

News - only in e-lea.

Take advantage of the training
according to the ISO 9001-2015
certified process - the creation
of educational materials
on the platform.

More pleasant learning thanks
to the intuitive
and "user-friendly" interface.

Full control of each user's
and group's progress is possible
to compare group results.
