

5 FAST & EASY WAYS TO *REV UP YOUR BUSINESS* WITH POWER AUTOMATE

CONNECT
ALL YOUR
DEVICES

01

With over 300+ plug and play connectors and growing, Power Automate enables you to easily connect your applications and devices—on-premises or in the cloud.

STEER AWAY
FROM MANUAL
PROCESSES

02

With hundreds of prebuilt templates, this low-code solution empowers users to develop process automations without expensive customizations or third-party software.

INNOVATE
WITH INTELLIGENT
WORKFLOWS

03

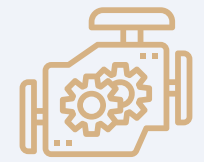

Power Automate includes innovative technology like robotic process automation and AI, as well as the ability to build processes with conditional logic, triggers or actions.

ACCELERATE
ACTION ACROSS
YOUR BUSINESS

04

Take customer satisfaction to the next level with multi-channel automations - from requests and approvals to communications and service delivery processes - on all your devices.

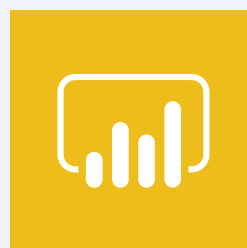

ELIMINATE
ERRORS FROM
MANUAL TASKS

05

Of course it saves time, but Power Automate also reduces risk by eliminating human error and duplicate entries, thus strengthening control over your processes.

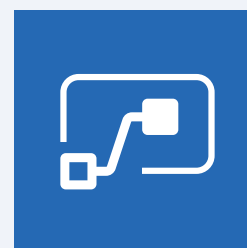

UNLOCK THE POTENTIAL
of Power Platform with PowerObjects

Power BI

Power Apps

Power Automate

Power Virtual Agents
