

## THE DYNAMICS 365 ACCELERATOR FOR SMBs

Following many years' experience, working with SMBs and based on our best practices, we have built a one-of-a-kind accelerator for Dynamics 365 implementations. Using our tools and with our team, you smoothly implement Dynamics 365

Simple to use

Readily go live

No initial costs

Special licensing & service packages for SMBs

### Our accelerator includes

1.

#### The Dynamics 365 solution for SMBs

The solution we developed is an exclusive platform for SMBs, simplifying work with the system. It includes Microsoft's finest features and extra developments based on our extensive experience and best practices.

2.

#### Personalized

Answer a few questions about your business processes and our smart engine does the rest; it automatically customizes your system.

It is a money-saving tool, and there are no initial costs!

3.

#### System implementation and go live

Our friendly and professional team helps to quickly implement the system (on average, within 7 days!).

The process includes training, additional customizations, Outlook integration and data import.

4.

#### Ongoing support

To make the most of your system year-round, Dynamics 365 professional is a must have.

You get: How to questions, new Microsoft features, users' management, licenses, extra customizations and more.

Dynamics 365 for sales and service was never so easy!
