Windows Virtual Desktop

Windows Virtual Desktop

The best virtual desktop experience, delivered on Azure

Delivers the only Multi-session Windows 10 Experience

- Provide your users with the only multi-session Windows 10 experience virtualized in the cloud that's highly scalable, always up to date, and available on any device.
- Multi-session and single-session Windows 10
- Store and legacy app remoting
- Free Windows 7 Extended Security Updates

Enable Optimizations For Office 365 Proplus

- Deliver the best Office 365 ProPlus experience with multi-session virtual scenarios to provide the most productive virtualized experience to your users.
- Office 365 containers make Office more performable in a multi-session environment including Outlook and OneDrive for Business support
- Profile containers enable faster and a more performable experience in non-persistent environments

Windows Virtual Desktop

The best virtual desktop experience, delivered on Azure

Migrate Windows Server (RDS) Desktops And Apps

- Migrate your Remote Desktop Services (RDS) environment for Windows Server desktops and apps with a simplified infrastructure management and deployment experience on Azure.
- Support for Windows Server 2012 and Remote Desktop Services 2012/R2 and newer
- App compatibility for existing Windows Server images used on-prem

Deploy WVD and Start Scaling In Minutes

- Quickly virtualize and deploy modern and legacy desktop app experiences in minutes with unified management in the Azure portal.
- Azure has datacenters available in 54 regions, and 140 countries.
- Azure management portal for Windows Virtual Desktop
- Built in security and compliance (Windows & Azure)
