

Velocity Migration

Azure on your terms

Sol-Tec provides a full range of services designed to help you migrate from your current infrastructure to the Microsoft Azure Platform.

We take a comprehensive approach to migrating your application and datacentre estate.

Our migration service enables clients to develop a comprehensive strategy for the adoption and exploitation of the full range of Microsoft Cloud technology products.

REDUCE COSTS

- Fully managed migration of your applications to Microsoft Azure.
- Work with experienced Microsoft Certified Azure Consultants

EXTEND LIFECYCLES

- Migrate both Windows and Open Source workloads to Azure
- Migrate from Physical, VMware and Hyper-V to Azure
- Migrate from AWS and other public cloud providers

AVERT BUSINESS RISK

- Migrate from outsourced datacentres or private cloud to Azure

“As a public body, it is vital that we demonstrate value for money, which meant we needed greater performance and control at a more reasonable cost. Sol-Tec made this possible. They gave us the autonomy we wanted to administrate and develop our own cloud environment, support to upskill our own workforce...We are already working with Sol-Tec on the next phase of our project to implement PaaS services, such as Azure DevOps, Azure Web Apps and Azure SQL...We know we can depend on Sol-Tec to help us deliver this with success.”

Adrian Murphy,
Senior Support Analyst, e-LfH

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
