# ABOUT US

Hitachi Solutions America, Ltd. is a business application consulting firm and trusted provider of vertical industry solutions built on the Microsoft Cloud. We are passionate about helping our customers successfully compete and thrive, leveraging powerful, easy-to-use, and innovative solutions enhanced with world-class IoT, Mobility, Business Analytics, Portals, and more.

## SCOPE & APPROACH

- Workshop/discovery sessions with the client
- Meet with Power Users to determine their experience and need for self-service BI
- Document the current data landscape; including structured and non-structured sources
- Work with Power Users to understand the supplementary data
- Provide recommendations on how to structure the supplementary data
- Create reporting templates with the current governed datasets
- Determine training required to get the most out of self-service
- Create a roadmap for transitioning to an 'ideal state' environment
- Provide communication strategies and procedures for operationalizing self-service models
